# TO REPORT

Waterworks Special Committee Will Probably Be Heard From Tonight.

The Garfield Avenue Viaduct May Not Be Built at All.

James Scott Accused of Attempted Assault Upon a Little Girl.

There will probably be some pretty lively times at the council meeting tonight. The special water-works committee met this morning and will present a report. It is understood that neither the Duluth Gas and Water company nor the West Duluth company have submitted any definite proposition but both have expressed a willingness to negotiate for the sale of their plants to the city.

There has developed a strenuous opposition to the Garfield avenue viaduct. From the outlook the problem of making a Michigan or Superior street approach will be solved by having no viaduct at all.

A resolution will be submitted asking the council to ratify the Duluth Ferry company's contract at \$25 per day for a steam ferry across the canal. The telephone subway ordinance is practically shelved and it is not thought safe in the present state of feeling among the aldermen to bring the matter up for a final reading. Therefore its prospects are lying low.

**ATTEMPTED RAPE.**  
A Revolting Crime is Charged Against James Scott.

James S. Scott appeared in the municipal court this morning before Judge Edison on a charge of attempting to commit rape on Annie Dunleavy, the 12-year-old daughter of Andrew Dunleavy, 2135 Fifth avenue west, an ex-

**WE recommend the Royal Baking Powder as superior to all others. It is indispensable for finest food.**

—United Cooks and Pastry Cooks Ass'n of the United States.

mayor of West Duluth. His preliminary hearing was set for Thursday, July 13, at 10 a. m.

On Saturday evening the little girl was accosted outside an old livery barn on Broadway, by Scott, who offered her 15 cents if she would accompany him inside. The child agreed but he was no sooner inside than it is alleged, the brute attempted to assault her. Her screams brought a number of children to the scene and they looked into the barn, frightened Scott, who fled without accomplishing his awful purpose. Mr. Dunleavy was immediately informed of the occurrence and notified police with the result that Scott was arrested inside of an hour on Central avenue by Sergeant Moen and brought to the central station. The man was removed to the county jail and held after his arraignment to await his hearing.

Scott is a day laborer, 34 years old, and resides at West Duluth. He bears a bad reputation according to the neighbors, who have regarded him as a man to be avoided.

The courtroom was crowded this morning and there was a good deal of excited talk among the spectators and the brute's small, blood-shot eyes blinked with fear and he gazed into the faces of the spectators. The statutory penalty applicable to his case is not less than two and a half years in jail nor more than fifteen.

"Men are but children of larger growth; Our appetites are apt to change as theirs."

When Dryden wrote this Dr. Price's baking powder had not made possible food so delectable that appetites always crave it.

**KILLING WAS ACCIDENTAL.**  
At the inquest at Bayha's morgue Saturday afternoon over the body of Bertie Jones, the colored boy, who died from injuries received in a street car accident, Thursday, it was decided that the killing was accidental and the company not in fault.

When Ruby was sick, we gave her Cuticura. When she was a child, she cried for Cuticura. When she became Miss, she clung to Cuticura. When she had children, she gave them Cuticura.

**REMOVAL SALE!**  
C. W. Erlerson, the clothier, has moved to No. 404 West Superior street, where great bargains in suits, hats and men's furnishings will be offered until the completion of the new store building on old site.

C. W. Erlerson, No. 404 West Superior street.

**Don't be Foolish**  
and take another brand of condensed milk until you find it is just as good as GAIL BORDEN EAGLE BRAND. It Has No Equal.

For sleeping car accommodation through to destination, call on F. E. DONOVAN, C. P. & T. A., 410 West Second, Chamber of Commerce.

MOVED!  
We are now located at No. 404 West Superior street. Call and secure great bargains on suits.

C. W. Erlerson, No. 404 West Superior street.

## MY SISTERS,

I Send You Comforting Words.

(SPECIAL TO OUR LADY READERS.)

"For years I had suffered from falling of the womb, inflammation of the stomach, and weakness of the female organs. I used Lydia E. Pinkham's Vegetable Compound, and found a perfect cure in it for these troubles. I am now going through the change of life, and taking the Compound. I find it strengthens me, and does much good. If every woman at this stage of life would take it, they would find much relief."—Mrs. LIZZIE DUNCAN, 224 Grand Street, Jersey City, N. J.

## AMUSEMENTS.

### VILLARS-OWEN COMPANY.

Saturday evening the Villars-Owen company presented "Dr. Jekyll and Mr. Hyde" before a fairly large audience. Before the play began there was an olio of specialties in which the Regent quartet, S. S. Murphy and Miss Villars performed, and they did so well that several recalls were necessary for each of them.

Stevenson's story of "Dr. Jekyll and Mr. Hyde" was put on in excellent style even from a broader standpoint than that usually accorded a popular price company. Mr. Owen was excellent in the title role, and he gave full expression to the awful agony of Dr. Jekyll and the equally awful wickedness of Mr. Hyde. Miss Villars was good as Mary, the vicar's daughter, and Mr. McConnell was excellent as the vicar.

The remainder of the cast were of a uniform degree of excellence. Tonight and tomorrow night "Pygmalion and Galatea" will be presented.

### MARK TWAIN.

On Monday evening Mark Twain the great humorist, is to lecture at the First Methodist church. He will give character sketches and talks about ninety minutes. Twain is now making a lecturing tour around the world and Duluth people are fortunate in getting an opportunity to hear him. He is less successful on the platform than in his writings and has everywhere met with great success.

### RIBLE ASSOCIATION MEETING.

The annual meeting of the St. Louis County Bible association was held yesterday afternoon at the First Presbyterian church. Some routine business was attended to and the following officers chosen: President, R. R. Briggs; vice president, S. C. Maxwell; secretary, George L. Gorton; treasurer, W. S. Woodbridge. A union meeting will be held Thursday evening at some place to be decided upon later.

### THE NEW ATTRACTIONS.

Fine Program Presented at the Pavilion Last Evening.

The Pavilion, despite the inclemency of the weather, was crowded last night and the men at the turnstiles were kept busy. The highly artistic character of the performance has in no wise deteriorated. Massaud and Marba have a morning and evening performance each, which tickled the popular fancy last night and was heartily enjoyed.

Like unto the flourishing "green bay tree" is Dr. Price's cream baking powder. Honest methods and skillful hands have produced this household treasure.

As we now have, but less expensive ones might have been erected or temporary quarters secured until such time as better ones could be afforded. Bread and butter and clothing are as essential to the welfare of children as education. Furthermore it is not the children who are educated with the most luxurious surroundings that develop into the best citizens or the most influential ones. Investigation will show that the brains of this nation today have been moulded and developed principally in buildings where—

"Around were the walls gray and dingy which every old school sanctum bath."

"With money a break on their surface where grinned a wood grating of lath."

We want in the school board some new blood—conservative blood. Respectfully, H. H. Phelps.

### WESTERN LEAGUE.

Latest United States Government Food Report attests to highest honors of World's and Midwinter fairs, proclaiming the superiority of Price's cream baking powder.

### FOUR GOOD MARKSMEN.

Four of Company C's marksmen had a practice shoot at Woodland yesterday afternoon, and the following scores were made: Two hundred yards: Capt. Roscoe, 40; Sergt. Watts, 38; Sergt. Coons, 27; Private France, 25. Three hundred yards: Capt. Roscoe, 45; Sergt. Watts, 37; Sergt. Coons, 41; Private France, 28. Four hundred yards: Capt. Roscoe, 38; Sergt. Watts (five shots), 12; Sergt. Coons, 30.

### SPORTING EVENTS.

O'Donnell, of Canada, and Chilas, of Minneapolis, wrestled at the Parlor theater Saturday night, and the match was won by O'Donnell in twenty minutes.

Next Monday at the Parlor theater Jerry Merley and Jim Arnold will box ten rounds.

Jimmie Murphy and Harry Finnick will fight ten rounds at Superior next Thursday night at Adian hall.

In response to numerous requests, Miss Spier, 212 East Third street, has decided to give instruction in German in classes or otherwise.

### BALTIMORE, MD., AND RETURN.

For the Baptist Young People's union at Baltimore, July 13 to 21, the North Pacific Wisconsin Central lines, will sell building 15 to 21 tickets to Baltimore and return at the one way rate, \$25. Tickets good returning, including Aug. 8. No change of depots in Chicago.

MOVED!  
We are now located at No. 404 West Superior street. Call and secure great bargains on suits.

C. W. Erlerson, No. 404 West Superior street.

## THE SCHOOL ELECTION.

New Blood is Needed on the School Board.

To the Editor of The Herald:

The annual school election occurs on July 20. The time is almost here. I have been surprised that so little is being said to direct the attention of the voters to the importance of this election. In a time of great prosperity when men are overburdened with the cares of their private business, it is not surprising that they should pay little or no attention to public affairs but should rather let them drift with the tide of politics. But this is not such a time. The sudden jerk with which business was brought to a standstill in 1893 has left most of us with plenty of time to reflect, and the first things that should attract our attention is public expenditures. In our private affairs, as soon as the reverse came, we began to look around and figure how our expenses could be curtailed. We cut off a little luxury here and another there, and as time passed and we saw the magnitude of the reverse, we began to cut off even necessities.

Not so, however, with public expenditures. They kept right up and are keeping up. The certificates furnished have been any change it has generally been an increase. The question naturally arises in the mind of the taxpayer, a man who has to pay these bills, how long can this sort of thing continue and not result in bankruptcy? It is becoming a serious problem with many property owners in this city who have seen their holdings from tax confiscation.

As an illustration of the magnitude of tax levies in this city I wish to cite a single case which has recently come under my observation. There is a piece of property in the Second division, thirty-three feet wide and 140 feet deep, worth probably at a fair valuation from \$1000 to \$1200. It is vacant property and owing to a dispute of title the taxes have not been paid for six years past. The auditor's certificate furnished a short time ago shows the amount of taxes for those six years, together with interest and penalties, to be \$1200. This is all general tax. There is no street assessment included in this amount. What effect will such a burden as these have upon non-residents who own property here? What inducement is there for outside capital to invest in our city? Can we grow and prosper in ordinary times with such drawbacks?

Our school system is not responsible, perhaps, for but a small proportion of this burden but every department of our government has its share to be responsible. We are all proud of our schools, and justly so, but there is no disguising the fact that they have run on a plan of extravagance that is not suited to the times or the condition of the taxpayers.

We cannot do the whole north shore of Lake Superior with palatial school buildings, in the short space of three or four years, and that, too, in the midst of a financial cyclone, without receiving a slight shock in the region of the pocketbook. I venture the assertion that the train is decked out with banners proclaiming its burden.

### ALL RAIL WOOL SHIPMENT.

The first all rail wool shipment through Duluth ended in yesterday over the Northern Pacific from Mandan, N. D. It was billed to Duluth by mistake and was taken to Superior where it was this morning. It will be taken out over the South Shore road to Boston this afternoon. The train is decked out with banners proclaiming its burden.

### Baseball Yesterday.

### State of Ohio, City of Toledo, Lucas County.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and will pay the sum of ONE HUNDRED DOLLARS for each and every false statement made by him or by any other person in connection with the use of Hall's Catarrh Cure.

Sworn to before me and subscribed in my presence, this 6th day of December, 1894.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the mucous surfaces of the system. Send for testimonials free. F. J. CHENEY, Toledo, Ohio.

Sold by all druggists, 75c.

### CHEAP TICKETS TO TEXAS.

July 12 to 25 the St. Paul & Duluth Railroad will sell one way tickets to Texas points, first class, as follows: Austin, \$28.50; Coranum, \$27.00; Dallas, \$26.00; Port Worth, \$26.00; Galveston, \$25.00; Houston, \$24.50; San Antonio, \$23.50; West, \$22.00.

For tickets and particulars call at city ticket office, 401 West Superior street, Fallado, and J. B. Ross, Northern Passenger Agent.

### KICKING HORSE.

Pass on the Rocky mountains, on the Pacific coast, is a beautiful view. On the right is Mount Stephens, the monarch of the Rockies; on the left is the great mountain range, you go through this wonderful pass to reach the lakes in the clouds to which the Pacific are named excursions for \$5.00 including double berth in first-class sleepers each way, every Monday in July and August, from Duluth and Minneapolis. Call on or write T. H. Larke, 426 Spaulding House block.

## THEY COMMEND IT.

Northwestern Benevolent Society Approved by Insurance Commissioners.

Theron F. Gidding, of Kalamazoo, Mich., insurance commissioner of the state of Michigan, and C. H. Smith, of St. Paul, insurance commissioner of Minnesota, were in the city on Saturday and jointly made a thorough examination of the condition, methods of business and, in general, of all the affairs of the Northwestern Benevolent Society of this city. The result of this was a strong letter of commendation from these officials.

In this city they say they found the assets to be over \$10,000 with practically no liabilities. The claims are promptly paid and the expenses of management are less than those of any other company. Although the percentage of claims paid to receipts is greater, the Northwestern Benevolent Society is conducting its affairs on a strictly business basis and that its showing is most commendable.

Mr. Gidding is not at all backward in expressing his opinion about the company and said that he was willing to give an even stronger endorsement. To a Herald man he told the story of the excellent character of the company and its showing.

"I am free to say that the company is well managed and its management excellent. Its officers, President J. P. Johnson, Vice President O. C. Hartman and Secretary and Manager V. D. Cliff, all seem to me to be thoroughly determined to make it a permanent and prosperous company and not a speculative enterprise. I see no reason why it cannot succeed in the future and I know it has in the past. The plan of this society is somewhat new and some business men are doubtful as to whether it would be successful but this company is certainly making it so. It is a good business and a good one which is growing constantly. I have no hesitation after my examination of the company to say that it is a very good company and a very good one."

Mr. Gidding was accompanied by his daughter and they left on the North Western train for Kalamazoo. He was very much taken with Duluth. "I am surprised at what I have seen," said he, "and really did not expect to find so much of a city. When I view your harbor and dock frontage I can easily see that you are a city of the future. Your growth and improvements already made are beyond my imagination. The excellent character of your buildings impresses me. Especially in this true of your schools and please me for I am always please to see fine school buildings."

### ANNUAL MEETING HELD.

The Young Men's Hebrew association, of Duluth, held its annual meeting yesterday, which resulted as follows: President, Charles Pollinsky; vice president, David Owevsky; financial secretary, S. Segal; corresponding secretary, S. Lavick; treasurer, S. Bakovitch; trustees, David Owevsky and Albert Pollinsky. The society has been in existence about a year and is in a very flourishing condition.

### Matchless and marvelous is the swift and even work done by Dr. Price's baking powder.

### Two Lake Excursions.

A charming lake excursion is one of the delights of a residence on Lake Superior that most people thoroughly enjoy, and this excursion promises to be the excursion of the season. People might well embrace these opportunities often and take the whole family along. Nowhere can so complete rest and thorough enjoyment be found than on one of these lake excursions and it is hoped the efforts of the ladies will meet with a generous response from the amusement loving public. Excursion music is engaged for the moonlight trip and tickets placed at 50 cents for adults and 25 cents for children. For sale at the drug stores.

### Census Enumeration Notice.

The following precincts and wards have now been reported as completed. All persons residing therein not enumerated will please notify the census enumerator, 618 Chamber of Commerce. In precincts that are not reported as completed it is presumed the enumerators have not had time to see everyone, and people living in such precincts need not at this time report themselves. As fast as enumerators shall complete districts and wards a list of same will be published in the daily papers.

List of precincts reported as complete to date:

### Duluth Tent No. 1, Knights of the Macabees.

will give a social dancing party at Macabees hall, King block, Tuesday evening, July 15, music by Duluth social orchestra. Come and enjoy yourselves.

## CHILI IS TRANQUIL.

Great Interest Manifested Now in Currency Matters.

Washington, July 15.—J. M. Seearno, of Valparaiso, Chili, manager of the International railway connecting Chili and Bolivia, is in Washington and gives interesting information of the status of affairs in that section, where rumors of war have been prevalent of late. Mr. Seearno says:

"The greatest interest in Chili just now is in the currency conversion law resulting in a gold basis, which goes into operation June 1. It has proved very satisfactory in operation and gives promise of changing the rate of exchange so that the balance of trade will turn toward Chili. Both gold and silver are coined and the old money continues to be used who prefer it on account of convenience. But the government always stands ready to reconvert the paper in gold, so there is no actual coin backing for all of our money. Before I left Chili," continued Mr. Seearno, "the talk of trouble between Peru and Ecuador over their boundary, but there was no intimation that Bolivia would join against Peru as recent reports have stated."

Mr. Seearno says the sentiment in Chili over the Balmora incident has died out and there is now the best of feeling between Americans and Chilians. The talk of a conflict between Chili and the Argentine Republic, he says, will pass away as both countries recognize that a victory to either of them would be more costly than it was worth.

## BIBLE SOCIETY.

Many Copies of the Scriptures Have Been Disposed of.

New York, July 15.—The sixteenth annual report of the American Bible society which covers the work of that organization in printing and circulating the Scriptures during the past year has just been published. The society has distributed more volumes in China during the year than in any preceding year since it began its operations there. In Japan, too, the Bible has been able to accomplish a great deal of work among the soldiers of the Japanese army.

More than 1,500,000 Bibles, Testaments and portions of the Bible were printed by the society within the year and over 1,000,000 of them were printed in the Bible house, and more than 50,000 were printed in foreign lands.

Through the purchases of additional volumes the total number printed and prepared by the society amounted to 1,555,671 copies.

Of these 1,100,000 volumes issued from the Bible house and 634,625 in foreign lands. Of the volumes issued from the Bible house 101,000 copies were sent to foreign lands and are not counted among the issues in foreign countries. Of the 1,100,000 volumes from the Bible house 845,952 have been for the home supply.

## Matchless and marvelous is the swift and even work done by Dr. Price's baking powder.

## PACIFIC CABLE.

Australian Colonies Are Pushing It With Great Vigor.

Victoria, B. C., July 15.—Australian papers reaching here announce that the premier of Victoria has called the agent general of the Midway colony as follows, with regard to the Pacific cable scheme: "Impress upon the imperial government the extreme necessity of the Pacific cable project, and urge an early meeting of the joint commission of representatives of the imperial government, Canada and the Australian colonies, to arrange a definite plan, subject to the approval of the governments interested. Secure all possible information as to construction and laying of the cable and endeavor to secure the co-operation of the other agents general."

In reply to this, the premier received a cablegram from Agent General Gilles, stating that none of the other agents general had received instructions to co-operate with him in urging the construction to the cable. The South Australian government alone had taken a stand on the question and its attitude was decidedly hostile to the cable project. The objection as raised that statistics on the cable were very incomplete and unsatisfactory and that a cable touching only British soil is not likely to prove acceptable to the commercial world.

## WEALTHY PIONEER DEAD.

Fresno, Cal., July 15.—Cornelius Yager, one of the most noted of California's pioneers, died here last night. He was born in Kentucky in 1818 and was connected with some of the most prominent families in the state. When an old man he learned he was heir to an estate in Germany worth many millions. The money now lies in the Bank of Hamburg awaiting settlement.

## HARD LUCK FOR SEALERS.

San Francisco, July 15.—Bad luck continues to follow the sealers' star, according to stories told by incoming sailors. The Emma Louise, which is cruising off the coast of Japan, recently lost three boats in a storm, two of which were picked up by the Bonanza and the Theresa. The boat's crew picked up by the Theresa had a terrible experience and were nearly devoured by a shark. In addition to encountering bad weather the sealers are making poor catches.

## cooling drinks are necessary. They are the universal antidote for excessive warmth. Nothing is so popular with the fair sex in Duluth as our soda served in all the various flavors and with cream.

rely the coolest and most delightful attentions well received, young men should treat their sweethearts coolly, by inviting them to enjoy our soda, which is really the coolest and most delightful summer drink in Duluth, wholesome, healthful and invigorating. Soda heads the list of summer beverages, and foaming stream from our fountain heads the list of all sodas.

**17,148**  
HIGH-WATER MARK.

### THE WEATHER.

U. S. Agricultural Department, Weather Bureau, Duluth, Minn., July 15.—The barometer continues lowest over Lake Superior, with a depression extending southwest to Kansas.

Fair weather has continued in all districts, except scattered showers from Lower Michigan southward to Eastern Tennessee, and in Northern Montana. It has become warmer in the Upper Mississippi and Lower Missouri valleys. In South Dakota yesterday the maximum temperature ranged from 50 to 102 degrees while in New Mexico the Canadian Northwest the temperature was much lower.

Duluth temperature at 7 a. m. today, 65; minimum yesterday, 59; minimum forecast for Duluth, West Superior and vicinity, till 7 p. m. tomorrow: Generally fair, but probably a thunder shower this afternoon or tonight; from southwest to northwest winds; cooler to night and Wednesday.

JAMES KENEALY,  
Local Forecast Official.

Chicago, July 15.—Forecast until 8 a. m. tomorrow: Wisconsin, fair, except conditions favorable for local thunder storms tonight. Cooler in West part tonight. Wednesday fair, cooler fresh south winds shifting to westward. Minnesota: Fair and cooler tonight. Wednesday fair with cooler in east portion, west winds. Depth of water over Milwaukee at St. Mary's ship canal, 11 feet 4 inches, and it will fall. Upper lakes: Windy, generally south today and tonight, becoming brisk tonight with conditions favorable for local thunder storms. Windy, brisk westerly by Wednesday.

"HELP ME, CASSIUS, OR I SINK!"  
In replying to the St. Cloud Journal-Press, The Herald spoke of the enormous premium this government paid the Rothschild-Morgan syndicate for financing the treasury department till October, and said: "God only knows what the gold syndicate will do with this country when the time is up." It seems that the members of the syndicate do not propose to wait until the time is up. They have the country by the throat and, like the pirates of Algiers and Tripoli, are determined to have more tribute. The Herald did not expect the hue and cry to come from the ranks of all gold-patch papers. But here is the Minneapolis Tribune, whose editor worships the golden calf and has returned thanks night and morning for five months that good Mr. Rothschild came to the rescue of the United States treasury, and saved this country from an awful fate. He was so grateful and so pleased with the results of the gold standard that he thought it positively wicked for any one to suggest that it would be a good idea to change to the double standard, and thereby declare our independence of the Rothschilds.

It seems that all this simple trust on the part of the mild-eyed editor of the Tribune was misplaced confidence. He is as much shocked to learn that the men who absolutely control the gold of the world are mere buccaners who are in it for blood, as a country jake would be to find that the ministerial looking person who met him on the train and robbed him of his money, was a wicked confidence man. Here is the leading editorial of the Minneapolis Sunday Tribune, and we call the special attention of our gold standard friends to it. The Tribune says: "Is it possible that the Rothschild-Morgan syndicate is going back on its agreement with the president after all? The agreement was that it should protect the national treasury against gold exports until Oct. 1. It still lacks nearly three months of that date, and gold exports have begun. A quarter of a million of the yellow metal went out on Friday. The amount was insignificant, and if the exports stop there, no harm will be done. But if it is only a beginning—if the syndicate intends to remain passive and permit other gold shipments to follow, the effect upon the financial and business situation may be disastrous. In that event popular indignation will be aroused to a high pitch, and the political consequences may be such as to make the administration wince. The syndicate cannot afford to violate its obligation. Every financial and business interest in New York and throughout the country is vitally concerned in the maintenance of good faith; for a violation at this time would invite a popular feeling against the moneyed and capitalist interest that might have serious consequences."

There is no use of the Tribune appealing to Mr. Rothschild to let up on the treasury. What cares he for popular feeling, so long as he can force a new bond issue and make a few more millions out of the necessities of the United States treasury? Appeal to a man who holds the treasury of this great country at his mercy?

"Why, man, he doth beside the narrow world. Like a Colossus; and we, petty men. Walk under his huge legs and peep about."

To find ourselves disabused graves." The Tribune is quite right in saying that "popular indignation will be aroused to a high pitch, and the political consequences may be such as to make the administration wince." The meaning of this, put into plain English, is that the American people will rise in their might and not only

"may" but will demand the restoration of silver to its proper place as real money as provided by the constitution. The Tribune admits, first, that the Rothschilds absolutely control the gold of the world and can prevent the shipment of gold from this country at will; second, that under the gold standard, and the interpretation of the law as given it by this administration, the treasury of the United States is completely at the mercy of the gold syndicate; third, that the financial and business interests of this great rich country depend entirely upon the caprice of these buccaners.

We admire the candor and frankness of the Tribune, and every line in its editorialist's "proofs of holy writ." And yet the Tribune and other gold standard papers have been telling us that if we remonetize silver "gold will go out of the country," as if gold would stay in the country if we did not. And this same Tribune demands that Congressman Towne shall be read out of the Republican party because, forsooth, he refused to "bend the supple hinges of the knee" to a few would-be bosses of the Republican party who worship this "mammoth of unrighteousness." Popular feeling will be aroused, indeed it is already aroused, not necessarily against "the moneyed and capitalist interest," as the Tribune says, but against American politicians and journals who have betrayed the people of this country in the interest of the gold gamblers of the world. Let the robbers go on with their work, for the day is not far distant when they and their champions and advocates will be driven out as Christ scourged the money changers from the temple.

DOOM OF THE BOODLERS.  
The boodlers in the Chicago city council are being found out at last, and there is now a strong probability that some of them will be convicted and sentenced to the state prison for their corruption. A special grand jury, composed of some of the best known citizens of Chicago, has returned indictments against two aldermen for soliciting bribes, and they will be tried at an early date. The evidence against them is said to be direct and very conclusive, and if the petit jurors do their full duty, the boodlers will receive the punishment which they deserve.

The Illinois statute on bribery fixes the penalty at not less than one year nor more than five years. This is not a severe penalty, but if the two aldermen should be convicted and receive even the minimum penalty, the moral effect would be powerful and would do much to efface "boodling" from the Chicago countenance. A condition of affairs in that body has been notorious. Men without any means, elected to that body, have grown rich within a comparatively short time. During the same period the council has granted valuable franchises to private corporations, without the city receiving anything in return. The source of the aldermen's suddenly acquired wealth has been evident. There has been talk about the corruption that prevailed. There has been little attempt to deny that boodling was going on, but no effort made any effort to put a stop to it. The public appeared to be indifferent. The result was that the boodlers became bolder. They assessed every person who had any dealings with the council. They introduced ordinances that would injuriously affect the business of corporations and private individuals, and when the latter paid the necessary price the ordinances were killed. In this way people have been blackmailed.

But the people have become aroused, and have decided to put a sudden stop to this sort of thing. The newspapers have taken the lead in demanding that the boodlers be driven out and punished to the fullest extent of the law, and altogether the prospect is bright that there will be a wholesale moral purification such as Chicago has never seen. The people of the whole country should rejoice at this awakening of public sentiment in Chicago, because the boodlers in that city have had many imitators in the smaller cities. The arrest, conviction and punishment of the Chicago boodlers will have a wholesome effect upon those who have been following in their footsteps, and will cause other communities to become alive to the necessity of municipal purification.

EPISCOPAL SLUMMING.  
Bishop Potter, of New York, deserves the admiration of all who have benefited by his self-sacrificing devotion to duty. While other preachers of renown are spending their summer vacations in the mountains, at the seashores, on the lakes or abroad, the bishop has decided to remain at home and toil among the poor, the lonely and the miserable of New York's population. That he will accomplish much good in the crowded tenement districts of Gotham no one can doubt. But in addition to his action will serve as an incentive to the ministry throughout the country to stick to their posts at a season when Satan frequently is left without opposition and to go among the poor and miserable classes of the community, and while preaching the gospel, all them to better their condition.

It is such practical experience among the slums as Bishop Potter proposes, says the Boston Transcript, that will eventually promote the interest necessary to lessen some of the evils there. To live, even for a short time, in sight of the miseries and shortcomings of such an existence soon brings about a purpose and increased opportunity to render assistance. Many ministers in our large cities are engaged in praiseworthy work of this kind, but the moral reformers should aim to come in direct touch with the painful surroundings of the poor. Religion is comparatively an easy matter to those who are well cared for and prosperous, but to those who are worn out in the constant struggle for existence it must be always of secondary importance. When the poor have some respite from the crushing grind of poverty and can keep their heads above water, so as

to appease the clamor of the landlord, and be provided with apartments where cleanliness is encouraged, they will more readily yield to the persuasions of religion. The try to make a hungry family understand the care of Providence before they are given food to satisfy hunger is a waste of energy.

After people are put in a position to be cleanly and healthy, they are in better condition to receive religious instruction. It is hard to make a starving and half clothed man a ready receptacle of religious belief. There is need of more practical Christianity in the land, and the step taken by Bishop Potter is a move in the right direction.

THROWING OUR GIFTS AWAY.  
The Salt Lake City Tribune the other day published an interesting article on the amount of gold and silver annually available for coinage. It quoted the general belief that the yield of gold this year in the world would be about \$170,000,000. For the last 400 years, of all the precious metals taken out of the ground, 64 per cent has been lost or used in the arts. Plugging the product this year on the same basis, and there would be about \$61,200,000 to be coined. This would give 20 cents apiece to the people of the United States, England, Germany and France, and nothing to the world outside. And yet we are told there is plenty of gold. The whole volume of gold in the world at this time, if given to the people of the United States, would be equal to \$52 per capita. When divided among our countrymen and those of the five strongest powers of Europe, it leaves \$14.40 per capita, and to those people the annual gain in money on the present strong output of gold would amount to less than 20 cents per capita. It is with that amount, starting with \$11 per capita, that the world's work is to be carried on and half of both continents subdued and civilized, and it is in the face of that showing that the wise men of the Eastern states, who deal in money, are afraid that the world will be inundated under a mighty volume of 150,000,000 ounces of silver per annum, only 25 per cent of which amount would give to these six nations just mentioned 13 cents per capita annually.

"A little perusal of the foregoing figures," says the Tribune, "will show how stupid and wicked is the attitude of the Eastern states and very many of the Western states toward the whole money question. It is money that rules the world and regulates prices. If we had only the sense to see the mighty advantage which our country would have were we to utilize its resources, nothing would keep us as a nation from being, within the next twenty-five years, a colossus, compared with which the great nations of ancient and modern times would sink into the condition of second-rate powers."

The figures given by the Tribune are certainly worthy of careful study. They form an effective answer to the claim of the gold standard men that there is enough gold produced annually to meet the growing demand for coinage and provide the people with a sufficient supply of money. The Tribune might have carried its calculation a little farther and shown that the annual gain in money would be less than 20 cents per capita because of the steady gain in the world's population and no corresponding increase in the output of gold.

The postal receipts of the United States are a pretty good business barometer, and they are now confirming the reports of renewed prosperity. Postal receipts increase with the population of the country, even in times of business depression, but the rate is accelerated in busy seasons, and the indications, from present sales, are that 1905 will show as great an increase as in 1902, when it amounted to 5 per cent per annum. During the business depression it fell to 3 per cent. The receipts at the Duluth postoffice have been showing a steady increase.

The extreme policy which Mayor Strong and the new police commissioners of New York are pursuing with reference to the regulation of the saloons, etc., is having the natural result of causing a reaction of sentiment, so far as reform in municipal affairs is concerned. The world, which has been a bitter opponent of Tammany, now says that it realizes, if Commissioner Roosevelt does not, that "the people of New York will restore Croker to power, and would restore Tweed himself, if he were living, rather than submit to such restraints as Roosevelt is imposing upon their personal liberties."

Professor Sutherland, of Australia, has discovered that with birds hatching young from eggs the time of embryo development is in inverse proportion to the square of the temperature, and at the same temperature the period of development is directly proportional to the sixth root of the weight of the animal. The Eastern Journal suggests that Mr. Sutherland should not forget that a hen and a half laid an egg and a half in a day and a half, the thermometer would become tangled.

The deficit for July is accumulating at a rate which suggests that the satisfaction expressed over the favorable showing of the treasury in June was premature. July is always a month of heavy disbursements, and something of this kind was to have been anticipated. It is satisfactory to know that the receipts are increasing, even if the bal-

ance this month is on the wrong side of the ledger.

The editorial columns of the New York Sun are generally free from inaccuracies, and therefore many of its Canadian readers must have been surprised the other day to see a reference to Premier Foster, of the Dominion. While Mr. Foster, who is the Canadian minister of finance, is the government leader in the house of commons, the premier is Sir Mackenzie Bowell.

The Boston Woman's Rescue league is sure that "bicycle riding has a demoralizing effect on women," because 30 per cent of the unfortunate who have come under its supervision have been bicycle riders. But what about the 70 per cent who never rode bicycles? Why not argue that if they had taken to the wheel they would not have fallen?

The Atlanta Constitution calls Mr. Dana's attention to the fact that "the literary paragrapher of the Washington Post is freely using the word 'tursted,'" and asks, "What shall be done with the man?" Why not provide him with a bust?

E. V. Smalley, editor of the North-west Magazine, St. Paul, has written for the August number of the Forum an article of great interest to Western people on the need of a deep waterway from the great lakes to the Atlantic.

Minneapolis papers are publishing lengthy articles charging that St. Paul is padding its census. This is a good time to keep an eye on Minneapolis. It may be crying fraud to divert attention to the other fellow.

The ministers are adopting the proper course in a Sunday observance by educating public sentiment up to their ideas. When all the people believe as they do on this subject, Sunday will be observed as they desire.

Congressman Eynum says that ten years in congress have convinced him that not ten members of that body ever know what is being done. That was the trouble when "the crime of 1873" was committed.

THE WATER PLANT PROPOSITION.  
To the Editor of The Herald:  
Now that the question of purchasing the gas and water company's plant is again brought to public attention, I beg to suggest that it might be a wise step to call a mass meeting of citizens to discuss the matter and to gather a consensus of opinion from the taxpayers, in regard to what the city ought to pay the water company for its plant. After a thorough discussion let a committee be appointed by the consent of the meeting of property owners, who shall have the duty to investigate and determine the value of this plant and submit a report to the city council, with a recommendation that the same be submitted to Mr. Belknap, with the suggestion that it is the opinion of the committee that a proposition to purchase the water plant at the price named in the report would be carried by a vote of the electors, and that if he agrees to accept the same in case it is carried, then the council will endorse the proposition to a vote of the people, otherwise they will not put the city to the expense of the election. It is my duty to me that this would be a common sense and business-like way of treating this matter, and there is doubt that a proposition to purchase the water plant at a fair consideration, would be carried by a large majority.

Duluth, July 15. One of the People.

A CHAMPION OF ABILITY.  
Madison, Minn., Independent Press: In Congressmen Towne, who spoke at the place on the fourth of July, we have a champion of ability. It is true that among certain gold monometallists, like the Tribune, Globe, Journal, Times and others of the daily press of the state, he has some bitter enemies, but the intelligent people of the state will not down with the man who is so intelligent and so brave. Those who accept the doctrine of Grover Cleveland are not the friends of bull-moosers, even though they may find such men as Sherman on that side, and Minnesota is fortunate in having at least one congressman who is free from the taint of the Wall street craze, one man who is ready to sacrifice himself, if need be, for the homes and freedoms of the people who elected him.

LOOKING FORWARD.  
Agricultural Advertiser: During vacation formulate your advertising plans.

BUT IT WAS NOT POSSIBLE.  
Cincinnati Tribune: Mr. Cleveland told Tammany to be honest—as if that were possible. It looks like sarcasm.

RELIEF FOR THE LADIES.  
New Orleans Pleynure: Hats are now made crooked, so that the wearers are not worried about their being straight.

A RECOLLECTION.  
When the hot sun scorches the asphalt street,  
When the treetops shrivel beneath the heat,  
There comes a memory wonderful sweet,  
Like a distant soft refrain,  
Of the time when over our snow-capped heads  
When the heart was light—and lighter the lead—  
When while the jeweled moments fled,  
Went gleaming with Mary Jane.

How the crisp snow sang 'neath the rushing of the feet,  
What faintful forms did the drifts reveal:  
How rippled her laughter's merry peal  
As we hurried along the lane,  
On, thermometer! Do your worst!  
Send up the mercury till you burst!  
That journey was dearest, first,  
That journey with Mary Jane.  
—Washington Star.

Dress Making Dept.  
**Here it is, Ladies..**  
The Opportunity is at Hand!  
**Dress Making Free!**  
COMMENCING TOMORROW...  
All our fine imported Dresses, both in Silk and Wool will be made up  
**Free of Charge!**  
That is, no charge for the making.

THE REASON: Rather than discharge our extensive dressmaking force during the quiet dressmaking month we concluded to give our patrons a benefit. No two dresses made for the same customer free. The prices of the dresses range from \$22.50 up, consisting of the most stylish and modern fabrics. TOMORROW THE DAY.

## Every Last Purchase in Ten!

The Greatest Purchasing Opportunity of the Age!  
Prices Lower Than Anybody!  
On, On, They Go. The Bell Rings Merrily and the Ladies Smile

And accept their good fortune with admirable grace. They say: "Some things we must buy," and this way "Some things we get for nothing." An inducement that is worth something. Another illustration of the fact that we do as we advertise. Thousands of meaningless figures daily fill the advertising space of newspapers all over the country, and the fact stands that the majority are misleading, tricky enticements of advertisers. This offer is an explicit illustration that WE do in every instance PRECISELY as we advertise to do. IF YOU HAVE THINGS TO BUY PREPARE TO BUY THEM NOW. Nothing, absolutely nothing, in the store reserved. A BELL WILL BE TAPPED by the cashier, designating each Tenth Purchase, and no matter who you are or what you have purchased, it is yours for nothing. All our fine.

Silks, Wash Goods, Laces,  
Gloves, Handkerchiefs, Cloaks,  
Furs, Millinery, Underwear,

## Great Remnant - Sale -

FOR THE BALANCE OF THIS WEEK.

### All Silk and Dress Goods--

Lengths shorter than ten yards taken out from the regular lines and placed on tables marked so much for the length.

#### In Silks...

You'll find lengths from a yard to ten yards. Many of them are just what you'd buy for waists. Some of the wide ones will be enough to make a nice house gown.

#### In Dress Goods.

Great picking here. The odd lengths are many of them just what you would buy from the piece if you were selecting a dress. Lots of short ends for Children's Dresses from one and a half to three yards.

### At Your Own Prices...

Would not be an exaggerated description of the way in which you'll find them all marked. The sale will last all week, but remember the best things are always picked out first.

*Liberstein & Bonds*

#### LAST RECITAL.

Mrs. William Hunter Brown to Play This Evening.

This evening Mrs. William Hunter Brown will give her last piano recital at the Pilgrim Congregational church. These recitals are given under the auspices of the Duluth Union of Christian Endeavor societies. Mrs. Brown made a fine impression last Wednesday evening and will undoubtedly have a large audience this evening. After the

concert there will be an informal reception and the musicians of the city who have been so delighted with Mrs. Brown will have an opportunity to meet her. In this evening's recital Mrs. Brown will be assisted by Miss Mary Miller, soprano, and Mrs. W. H. Drake, organist. The program will be a fine one, and will include the two numbers by Liszt which Mrs. Brown played last Wednesday, and will repeat by request. The piano numbers are as follows:

Part I.  
Prelude—Waltz—"Fantasia" Im-promptu—Schumann.  
Part II.  
(a) Gavotte—Bach.  
(b) Two numbers from Poppilioni—Liszt.  
(c) "Waltz from the Carnival Suite"—Schumann.  
Study (for left hand alone)—Liszt.  
"Gnomes"—Rheinberger.  
Part IV.  
"Love Dream"—Liszt.  
"Twilight Rhapsody"—Liszt.  
Miss Miller will sing a selected solo and Mr. Drake will play the war march from Wagner's "Rienzi".

**WHY?**  
Taste of "Royal Ruby Port Wine" and you will know why we call it "Royal". A glass held up to the light will show why we call it Ruby. \$200 reward for any bottle of this wine found under five years old. It is grand in sickness or where a strengthening cordial is required; recommended by physicians. Be sure you get Royal Ruby. Sold only in quart bottles; price \$1. For sale by S. F. Boyce, drug-

**REDUCED RATES TO BALTIMORE.**  
On account of the meeting of the Baptist Young People's union at Baltimore July 15 to 21, the B. & O. R. Co. will place on sale at all ticket stations on its lines west of the Ohio river excursion tickets at one fare for the round trip. These tickets will be sold July 16 and 17, valid for return passage until Aug. 5. The rate from Chicago will be \$17.50, and proportionately low rates from other points. Tickets will also be placed on sale at all coupon offices west of Chicago.

Money to loan. Fire insurance written. Bank stocks for sale. Goods properties for sale. Houses for rent.

**WM. E. LUCAS,**  
1 Exchange Bldg.

President Belknap of the Water Company Names a Selling Figure.

City Can Have the Water Plant for \$48,000 and the Bonds.

Salaries of Members of the Board of Public Works Reduced.

The question of city ownership of the water plants came to a head at the council meeting last night. All the aldermen were present to hear the report of the water-works special committee, consisting of Aldermen Ash, Cox and Christensen. The report was accompanied by two communications, one from President R. L. Belknap, of the Duluth Gas and Water company, and the other from the West Duluth Water company. President Belknap's letter offering the plant of his company for sale was as follows:

**BELKNAP'S PROPOSITION.**  
"As requested by your committee and on behalf of the Duluth Gas and Water company, acting on their suggestion that you prefer to have a figure on our water plants made, I have the honor to sell the water plants of the company to the city of Duluth for the sum of \$48,000, subject to a 10 per cent interest on the sum of \$48,000, and all real estate and personal property taxes thereon for the year 1896, to be paid in cash or in 4 per cent orders at your option."

"The company, however, is to be granted the continued right to lay gas mains and pipes in any trenches which the city may dig for water mains and pipes, upon payment to the city of one-third of the cost of digging and relaying such trenches, and if the company shall not lay such gas mains and pipes when such trenches are dug, it shall be liable to the city for the cost of the same, such subsequent relaying and relaying shall be done at the expense of the company, and the company shall at the same time pay to the city one-fifth of the original cost of the plant."

"The company, however, is to be granted the continued right to lay gas mains and pipes in any trenches which the city may dig for water mains and pipes, upon payment to the city of one-third of the cost of digging and relaying such trenches, and if the company shall not lay such gas mains and pipes when such trenches are dug, it shall be liable to the city for the cost of the same, such subsequent relaying and relaying shall be done at the expense of the company, and the company shall at the same time pay to the city one-fifth of the original cost of the plant."

**MARK TWAIN.**  
Next Monday evening Mark Twain, the great humorist, will lecture at the First Methodist church. The Cincinnati Enquirer says of him:

"Mark Twain enters upon the stage with the self-possessed ease of a man passing into his own drawing-room. The look upon his face suggests that he has mislaid his eyeglasses and returned to look for them. Finding a number of persons present, he stops and looks at them. Finding a number of persons present, he stops and looks at them. Finding a number of persons present, he stops and looks at them."

**WEAK, WEARY AND WASTED.**  
People may become strong, vigorous and healthy by taking Foley's Sarsaparilla, a perfect blood purifier, a splendid tonic. Trial size 50 cents. Max Wirth.

**Gun Went Off.**  
Alexander Jandz, the 16-year-old son of John Jandz, 24 West First street, was seriously hurt late yesterday afternoon by the explosion of an air gun with which he was playing.

The injured lad with two other boys were shooting at a mark with a small air gun. The missile entered Jandz's neck just under the right ear. The boy is in a state of semi-consciousness.

**VOYAGERS FOR PLEASURE.**  
Or business, persons on the point of taking an "outing" on land or sea, yachtmen and tourists need and should be provided with some preventive of sea sickness and corrective of the occasional ill effects of sea sickness. Many nervous persons experience qualms akin to sea sickness when traveling by rail. They need a medical safeguard. The best in existence is Hostetter's Stomach Bitters, which promptly relieves nausea, sick headache, indigestion, constipation, biliousness, prevalent don't fail to provide yourself with it. For constipation, rheumatism and activity of the kidneys it is an excellent remedy. Embroider physicians commend it highly before a traveler. It is a most serviceable traveling companion.

**BICYCLE FREE.**  
BOYCE'S Drug Store is the place to buy CIGARS. Choice high grade goods at low prices. Also cigars, tobacco, and a full line of stationery. Also a full line of stationery. Also a full line of stationery.

**HIGH TARIFF OR LOW TARIFF.**  
Does not interest the individual who is suffering from constipation, indigestion, biliousness, or any other ailment? What he wants and wants badly is Foley's Colic and Diarrhoea Cure. 25 and 50 cents. Max Wirth.

## A Sufferer Cured

"Every season, from the time I was two years old, I suffered dreadfully from erysipelas, which kept growing worse until my hands were almost useless. The bones softened so that they would bend, and several of my fingers are now crooked from this cause. On my hand I carry large scars, which, but for

**AYER'S Sarsaparilla**, would be sores, provided I was alive and able to try anything. Eight bottles of Ayer's Sarsaparilla cured me, so that I have had no return of the disease for more than twenty years. The first bottle seemed to reach the spot and a persistent use of it has perfected the cure."—O. C. DAVIS, Wanton, Wis.

**AYER'S Sarsaparilla**

AYER'S PILLS Promote Good Digestion.

ing eighty-six names and another with sixty-one names, were from the property owners on Superior street, and insisted on having the street widened to Forty-fourth avenue. The matter was referred to the committee on bridges and viaducts.

A temporary sidewalk on the southwest corner of Lake avenue and Superior street was ordered built, and the city engineer, Mr. J. H. Brown, was given permission to erect a temporary board house in the vicinity of the station.

The proposition to extend Jefferson street sixty-six feet wide through Harrison's division to connect with Jefferson street in East Duluth, and thence forty feet wide to Grand avenue at Forty-fourth avenue, was carried, and condemnation proceedings ordered commenced.

**THE LYLE GOLD MINE.**  
The Ore Becoming More of Free Milling Sort.

The Lyle company began dropping stamps on ore taken from the 75-foot level of Shaft No. 1 Tuesday, and soon got a fine showing of free gold on the plates, says the Duluth Journal of July 11. It seems that the character of the ore is becoming more and more of a free mill sort, and greater quantities are attained. In this respect the ore of the Lyle mine resembles that of the Mesaba mine on Lake of the Woods. The company are going to sink the shaft to the 100-foot level, and will then put a steam dynamo drill and thoroughly explore the property by its shaft. They have an ore body about a mile wide, and a vein of a mile long. D. W. Bell was down from the Great Mesaba mine on Lake of the Woods, reports that the property now has a shaft about 10 feet and it is showing good ore. The shaft is not yet completed, and the company are not yet ready to take the property the first of August. The price is \$5000. As soon as the shaft is completed, the company are expecting again in the Manitowish county.

The Regma mine on Lake of the Woods will be dropping 20 stamps by Sept. 1.

It is reported that a controlling interest in the Sullivan mine has just been sold to an English syndicate for \$100,000 cash. The property now has 20 stamps and 15 more are to be put in at once.

**NORTH WEST'S ARRIVAL.**  
The North West arrived at 5:30 last night, twenty-two and one-half hours after leaving Chicago. They were met by a large number of passengers. Among them was General Manager John Gordon, of the Northern Pacific. The North West left at 10 o'clock.

**State of Ohio, City of Toledo, Lucas County, ss.**  
Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, Ohio, and state, aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of catarrh that cannot be cured by the use of Halls' Catarrh Cure.

**Sworn to before me and subscribed to by me this 5th day of December, A. D. 1895.**  
A. W. GLEASON, Notary Public.

Halls' Catarrh Cure is taken internally and acts directly on the blood and mucous surface of the system. Send for testimonials free. F. J. CHENEY & CO., Sole and only druggists, 75c.

Mrs. Rhodie Noah, of this place, was taken in the night with cramping pains and the next day diarrhoea set in. She took half a bottle of blackberry cordial but got no relief. She then sent me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and the first dose relieved her. Another of our neighbors had been sick for about a week and had been unable to get up for diarrhoea but kept getting worse. I sent him this same remedy. Only one dose relieved him. He says he owes his recovery to this wonderful remedy—Mrs. Mary Sidney, Mich. For sale by all druggists.

**Smith, Farwell & Steele Co.,**  
226-228 Superior Street, DULUTH.

**ON THE MESABA RANGE.**  
Shipments Now Going Regularly From the Norman.

The first shipment of ore for this season was made from the Norman Monday night and consisted of one train of thirty cars. Since then they have shipped about this number daily. The output will be greatly increased as soon as the drifts are advanced into the Mesaba ore. About fifty-five men are now employed and more are being added daily. The Norman will be in the front row soon.

The Auburn is daily shipping about seventy cars. The ore is being dumped direct from the mine into the cars, and large stockpiles mined during the winter has as yet not been touched. The mine done at this property now is the milling process and the ore is of Bessemer grade. The Duluth & Iron Range handle all the ore from this mine. Tuesday was the largest day's output from the mine with one steam shovel at the mine. One hundred and twenty cars of ore were loaded in nine hours by the Harbinger. AA shovel, this is a record which has never been beaten on the Mesaba range. The above was loaded from the Lone Jack property.

On June 29 four steam shovels working for the Drake & Stratton Co. handled 4000 yards of dirt. During this time one shovel was laid up over five hours. It is rumored that Eastern capitalists are taking hold of the Lone Jack mine at Mountain Iron and will work it to full capacity ere the end of the season. If this is so it will be a blessing to Mountain Iron.

The Bessemer shaft at the Franklin mine is to be started on Tuesday and work and loading commenced Thursday. The steam shovel is loading about sixty cars a day. The Lone Jack mine is now shipping about thirty cars a day.

No shipping is being done from the Mesaba mine at present, controlled by the Oliver company at present. Two shovels are loading from their Lone Jack property and the ore is among the best that the range produces.

The Consolidated at Mountain Iron are working a few more men, and other shovels is stripping. They are loading about 100 cars per 24-hour shift. The road bed has never been beaten on the Mesaba range. The above was loaded from the Lone Jack property.

**Census Enumeration Notice.**  
The following precincts and wards have now been reported as completed—  
all persons residing therein not enumerated will please notify the census committee at 618 Chamber of Commerce. In precincts that are not reported as completed it is presumed the enumerators have not had time to see everyone and people living in such precincts need not at this time report themselves. As fast as enumerators shall complete districts and wards a list of same will be published in the daily papers.

Seventh precinct—Steele school building, New Duluth.  
Eighth precinct—School house Fond du Lac.  
By order of the board of education of the city of Duluth. H. W. PEARSON, Clerk.

## Where the Shoe Pinches

Is not usually a difficult thing to determine, especially when the sufferer is afflicted with tender feet. It is easy to say, of course, that PHILLIPS' SHOES DON'T PINCH, but they do if you get 'em too small—a thing which you should never do. Give your feet plenty of room if you want 'em comfortable. There is no disgrace about a large foot nor a large shoe. Sometimes, however, the real pinch is not in the shoe itself but in the price. In such cases it is not the foot but the purse that is pinched. We have removed all danger of this variety of pinch, however, in

#### SANK OUT OF SIGHT.

##### A Section of Track Dropped Into a Muskeg.

An accident occurred on the Duluth, Mississippi River & Northern railroad last Thursday about a mile and a half from the Mahoning mine which may indeed be considered most fortunate under the circumstances, says the *Trumpet*. The train was passing over a trestle of the track went down in a muskeg, or subterranean lake, and about 100 feet of it was covered by twenty-eight feet of water. The accident occurred shortly after a special train had passed over the road with Assistant Superintendent Ketchum and Mr. J. M. Sloan, of the St. Paul and some of the D. M. R. & N. officials. It was known that the muskeg existed but it was not thought so dangerous as it really proved to be. The marvel is that the trestle did not take place while a train was passing over it. This will cause a delay of a few days in shipments. It is thought that the work of repairing can be done by pile driving.

NOTHING can be substituted for the ROYAL BAKING POWDER and give as good results. No other leavening agent will make such light, sweet, delicious, wholesome food.

#### RAINY LAKE DIAMONDS.

##### A Story That Will Be Received With Doubt.

According to the Rainy Lake Journal word has reached Rainy Lake City that early in the spring an Indian, while on a hunting trip was dismayed at the sight of a brilliant stone that gave forth all the colors he could think of, including the sun, moon and stars. Full of superstitious dread he paddled away from the spot with all possible speed. He did not mention the matter to other Indians until quite recently, when it reached the ears of a half-breed who had some notion of gems and thought it might be a big diamond. After some persuasion and setting at comparative rest the superstitious fear of the Indian, he finally prevailed upon him to take him to where he had seen the strange thing, but owing to the high water coming on the Indian could not locate it. However, later on the half-breed will make another attempt to find the stone and it may be something equalling the famous Koh-i-noor diamond may yet be discovered in the Rainy Lake region.

#### AT THE PAVILION.

##### Large Audience Saw an Excellent Show Last Evening.

A large house witnessed the performance at the Pavilion last night and found happiness on the hilltop. Masaud and Marha, the grotesque acrobatic giants, caused enough smiles and Mlle. Albert, the slack wire performer, excited enough admiration to last a lifetime. George M. Spence and Minnie Sarrille are a versatile couple and their songs, dances, music and sketches met with hearty appreciation. The Duluth City band rendered the usual high class music.

#### A Steamer Dispute.

In the case of James Robinson against Charles Kieren, a partnership dispute over the steamer *Moose*, on Lake Vermilion, J. B. Richards, referee, has filed his findings to the effect that plaintiff paid out in the construction of the boat \$2469.50, while the defendant paid out \$883.95, and that the net proceeds from the sale of the boat be applied

#### PERSONAL.

Miss Mary Manning, Miss Julia Garvey and Miss Mary Garry, of Chicago, arrived last evening on the City of Travel and will remain several weeks visiting Mr. and Mrs. Fred Russell and other relatives. A. V. Huff, of Page City, N. D., C. E. Smith, of St. Paul, and A. B. Dickinson of Galesburg, Ill., were on the board of trade from Duluth. Alderman J. Donahue, of St. Cloud, is in the city and will remain several days. He is United States pension examiner and a land agent. A. Harrington and son, of Minneapolis, are in the city today. Mrs. Jessie Beatty, of Minneapolis, is visiting her friend Miss Ella Johns. Miss M. E. Tanager, formerly a teacher in the Duluth schools, is visiting friends here. She has been in Brooklyn for two years and has been appointed director of the art department of the Stevens Point, Wis., normal school. Professor A. J. Woolman, of the high school and E. J. Hawkesworth left yesterday for a trip through the Lake of the Woods region. G. S. Boyd accompanied them. Professor Woolman will work in the interest of the state fish commission of which he is a member. Miss Augusta McGuire, who has recently graduated from convent of Lady of Lourdes, is visiting her cousin, Miss Minnie McDonald. Mrs. Bourget and Mrs. Dupont, of Minneapolis, are the guests of Mr. and Mrs. J. B. Laframboise. Miss Minnie Louie and Miss Anna Penske, accompanied by their niece Bertie Laurence, have gone to Marquette for a month's visit. Mrs. S. B. Fletcher and Mr. and Mrs. W. F. Browning, of Mr. Carroll, Ill., are the guests of L. E. Browning. Sheriff Butchart and wife are visiting Mr. Butchart's nephew, Dr. George Butchart, at Hibbing. Mrs. James Davidson, Miss Davidson and Miss Fisher, of Bay City, Mich., are the guests of Mr. and Mrs. G. A. Tomlinson, of 1127 London road.

Nicholas Muller returned this morning from Ashland where he was present yesterday at the laying of the corner stone of the new Masonic temple. Mr. Muller has the contract for the construction of the building. Mrs. M. J. Muller returned home last evening after an extended visit with friends in Chicago. Miss Della Withington, of Fairbault, arrived this afternoon for a two weeks visit with Mr. and Mrs. C. S. Wilcox. William McCutcheon, who taught the Rice Lake school during the year past, was unanimously elected principal of the schools at Howard Lake, Wright county, Minn., last night. He is a graduate of the Valparaiso, Ind., normal school. C. A. Sharkey is here from Crookston. Mr. and Mrs. T. W. Smith, of Minneapolis, are at the Spalding. The Misses Emma Mason, of Winona, and Ida Bascom, of Chicago, are visiting in town. William Windsor and W. A. Brown are here from Washington, D. C. C. S. Morgan and Miss Mary Morgan, of St. Paul, are visiting in Duluth. Mrs. M. A. Bradley and child, Cleveland, O.; Mrs. T. M. Pelton, Syracuse, N. Y.; and Miss Sophie Karper, of Cleveland, O., are in the city on a tour of the Northwest. James N. Hill, William N. Armstrong, Sam Hutchinson and W. C. Reed, of St. Paul, and E. W. Durant, Jr., of Stillwater, arrived in the city today and left this afternoon for a trip around Isle Royale on the steamer *Pickett*. James Johnston is here from New Richmond, Wis. William Chalmers, of Stillwater, is in the city. Mr. and Mrs. E. L. Ahnesworth, of Chippewa Falls, Wis., are visiting in the city. E. C. Tupper and wife, of St. Louis, Mo., are registered at the St. Louis. Deputy Sheriff William Walls and wife, of Blawie, are visiting in the city. P. H. Marlon and Miss Ella Marlon, of Tower, passed through Duluth today on their way to St. Paul. J. F. Kilborn, manager of the Swan River Lumber company, is here from Swan River. J. E. McWilliams, of St. Paul, was in the city today. James Sampson, of Sioux City, Ia., is in the city. Mr. Sampson is interested in the Duluth Transfer railway.

## BARBUSH

Lively Time at the Land Office, Four New Towns Being Opened.

Line Was Formed Last Evening and Put in the Night.

Another Town With Valuable Land is to Be Opened Tomorrow.

Four new towns were opened for entry at the United States land office today and there was the liveliest time that has been seen around there for many months. The towns opened were 155-28, 155-29, 156-27 and 156-28. In some of them only fractional parts were opened, and in many cases the entries conflicted with Indian allotments. Most of the lands taken were in 156-27, and this town seems to possess the best lands; at least the scramble to secure entries in it was the hottest.

The men began to form in line as early as 6 o'clock last evening. They lined up at the fifth avenue entrance to the government building. There were two factions and there was quite a warm struggle at different times during the evening to get to the front. About 10 o'clock matters took a new turn and one which excited the wrath of those at the fifth avenue door. A crowd of men, supposed to be principally from St. Paul and Minneapolis, entered the first street door and standing themselves in the lobby. The custodian, Richard Long, endeavored to eject them, but they refused to go, and he sent for a policeman. An officer came and put them out of the fifth avenue door. This was just what they wanted. They were forced out of the door directly in front of those already there and in this manner they gained the head of the line, and they maintained it, too. Policemen were on hand to prevent any quarrelling. At 6 o'clock this morning, when the building was opened, a rush up the stairway was made and the crowd, numbering about seventy-five, pressed around the land office door. They remained there until 10 o'clock, when the building was opened. There was no chance for any trouble owing to the vigilance of the police.

ONE ALMOST FANTE. The crush was terrific and some of the men were hurt through it. It was well worn out. One fellow almost fainted and had to be assisted into one of the rooms. Another staggered through the door when his turn came and leaned against the wall and heaved a sigh of strength enough to walk to the desk. Even then he was unable to say a word. In the lobby, where the men were crowded, it was some time before he could tell what he wanted. The weather was warm and the men were dripping with perspiration. They had their application papers in their pockets handed them in with the perspiration from their clothes. Within the hour for opening arrived four men were placed at the door and held it while the men were let in, one at a time. There was one woman in the crowd, but she did not participate in the crush, having a child which she will have to contend for anyway. In all thirty-nine applications were received. Of these nineteen were accepted, thirteen being timber and stone and six homestead entries. Twenty of them conflicted with Indian allotments and some with the state's right, having been selected as swamp lands. There were three sets of settlers in the crowd and the first ones made timber and stone claims.

Tomorrow there will be a rush probably equally as great, for a more valuable town will then be opened, 65-25. On Thursday township 58-10 will be thrown open. Altogether it will be a busy week at the land office.

#### TO RENT—HOUSES.

9 rooms, modern, 1021 London Road \$30.00  
7 rooms, city water, 2141 Ave. West \$25.00  
7 rooms, bath, furnace, Edison, \$25.00  
7 rooms, bath, furnace, Edison, \$25.00  
Geo. R. LAYBOURN, 14 Phenix Bldg.

#### Virginia Men Released.

Martin Larson and Oscar Selzer, who were brought down from Virginia last week for celebrating the Fourth in so vigorous a manner that their explosives endangered the lives and damaged the house of another Virginian, were released by Judge Lewis this morning. They were to have been held to the grand jury in default of bail. I. Grettum, their attorney, brought them before Judge Lewis this morning on a writ of habeas corpus, alleging that neither the complaint, warrant or commitment stated a public offense. It took but a few moments for Judge Lewis to agree with the attorney, and he ordered the prisoners released.

ELECTRIC BITTERS. This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters, know the same song of praise. Purer medicine does not exist and it is guaranteed to cure all diseases of the liver and kidneys, will remove piles, boils, skin eruptions and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try Electric Bitters. Entire satisfaction guaranteed, or money refunded. Price 50c and \$1.00 per bottle at Max Wirtz's drug store.

#### ARE YOU GOING EAST THIS SUMMER?

Don't forget that the great summer tourist route is the Michigan Central, "The Niagara Falls Route," a first-class line for first-class travel, the popular line to Niagara Falls, Mackinac Island, the Thousand Islands of the St. Lawrence, the White mountains, the Adirondacks, Putnam and New Boston and New England points New York and the seashore. Send 10 cents postage for "A Summer Note Book." It will tell you all about these places and how to reach them. Write to W. W. Russell, general passenger and ticket agent, Chicago.

Professor Robinson, instructor High School Banjo, Mandolin and Guitar club, studio 3 West Superior street.

#### THE GROCERS' PICNIC.

##### Grocers and Traveling Salesmen Will Play Base Ball.

The traveling salesmen of Duluth have challenged the grocers to play a game of ball and the latter have accepted. The game will be played on Thursday next at the grocers' annual picnic at Fond du Lac. The grocers have secured their own fire team and claim they will put up a rattling game. Al Gasser is captain of their nine and Ed Wilkerson will captain the traveling men. The grocers' nine is made up as follows: Herman Ompel, third base; Frank Sleeper, short stop; C. B. Numan, second base; S. W. Hill, center field; P. L. Johnson, left field; Al Gasser, pitcher; P. L. Dow, catcher; F. Roseboom, first base; W. B. Logan, right field. The traveling men are getting a strong team together and the game will be a hot one. They will play five innings.

Everything points to a great time if the weather is favorable. The grocery stores will all be closed on that day and it behooves everyone to order his Thursday's supply tomorrow. Trains will run to Fond du Lac at frequent intervals. There will be a large number of entries in all of the contests and the attendance will undoubtedly be large.

#### FOR HEAVY, SLUGGISH FEELING USE HORSFORD'S ACID PHOSPHATE.

It produces healthy activity of weak or disordered stomachs that need stimulation, and acts as a tonic on nerves and brain.

CHARGED WITH BASTARDY. In Judge Boyle's court this morning the bastardy case of Emma Anderson against Sievert Thompson, which was commenced yesterday, was resumed. A number of knotty legal tangles came up and the judge took the matter under advisement before rendering a decision. The complaint was housekeeper for Thompson, who lives on Twenty-second avenue east, and who has the benign appearance of a patriarch.

#### 6 per cent Money in bank

for any good loan, large or small. Call on Stryker, Manley & Buck. Some nice houses to rent cheap. We have just what you want. STRYKER, MANLEY & BUCK.

#### GROCERS' PICNIC TO FOND DU

Thursday will be the picnic of the season. Tickets, 50 cents each, can be had from any of the grocers. Trains leave Union depot 7:30, 8:30, 1 p. m.

## FREMUTH'S

### Ladies!

Read this! There is \$500 in it for you!

Just Born—A NEW HOOK and EYE. \$500.00 To Its Godmother!

Here is a new hook so entirely original and different from any other ever made that it is not easy to find the right name for it. Hook as "Hank" as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

THESE ARE THE POINTS: 1st. The "hook" has no "hump" and nothing else to wear out your fingers and your patience. 2nd. The "hook" has no long "tail" to stretch over the eye when hooking.

3rd. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

4th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

5th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

6th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

7th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

8th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

9th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

10th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

11th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

12th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

13th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

14th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

15th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

16th. You don't have to look at what you are doing. A blind woman can work the "hook" as easily as one who sees. No matter how tight the garment, press the "hook" and it stretches out. A little twist—and it stretches out. The eye when hooking.

And today the crowds continue larger and bigger.

Why is it that we're doing a phenomenal business with this great suit sale of ours? We'll tell you. We are giving values that exceed the expectations of those who come to look. They buy. Others come and buy. So the business grows.

Choice of Any Suit in the House.....

Choice of all \$17, \$16, \$15 and \$12 Suits for.....

**\$14.98**

**\$9.98**

You can look without buying, but you can't buy without looking. It is cheap enough to see and it doesn't cost much to make a purchase.

## IT WINS

Minnesota Canal Company  
Secures a Favorable Decision From Lewis.He Finds That it Has the  
Right of Eminent Domain.The Case Was Closely Con-  
tested and Will Probably  
be Appealed.

Within a few days Judge Lewis' findings in the Minnesota Canal company's condemnation proceedings will be prepared and filed, and the decision will be in favor of the company and against the objectors. Accompanying the findings in the case will be an order appointing commissioners in condemnation.

The case came up some time ago before Judge Lewis in the district court, and was taken under advisement by him. A most stubborn fight was made on the part of a number of the respondents, and some of the ablest counsel in the city was employed in the case. A very close legal question is involved in the contest, and it will undoubtedly be tested in the supreme court.

The objects raised this point upon their principal fight was made: The company is incorporated for a number of purposes, among them for canal or transportation purposes, evidently a public service, and to store water for use as power, claimed to be a private use. The objectors claimed that as the latter purpose was a private one the whole must fall and the company must have no right of eminent domain.

Judge Lewis decided, however, that because one of their purposes was to store water for use as power, the company was a private one and did not necessarily destroy their rights under the other purposes, which were public services. Moreover, Judge Lewis states that in his belief the tendency of legislation is to enlarge the right of eminent domain to meet the exigencies of the times, and he states as an example the irrigation scheme of the West, where streams are condemned for that purpose.

There seems to be little difference between stopping the water in a stream and collecting the waters of a number of streams for power or navigation purposes.

ARE STILL DETERMINED.  
Henry Curtis Spaulding, president of the Minnesota Canal company, was asked if the favorable decision would result in any new developments in the plans of the company.

"It will depend upon what further litigation there may be," he said. "You may say, however, that the determination to prosecute this enterprise to finish has not faltered since its inception three years ago, and the further we go the less reason we have for abandonment."

George Browning, of Chicago, one of the directors of the company, is in the city.

The objectors, represented by the five attorneys who appeared, numbered about seventy-five but among them were many who were known by the company to be favorable to its plans, and consequently it was not known whether the real objectors were the large property owners or the Motor Line Improvement company and the Highland Improvement company.

Alabama. An old tradition represents an old Indian warrior as having grown weary of the bloody strife of some Eastern region, and resolving to seek a more peaceful life, he made his way over swollen rivers and through tangled forests until he came at length to the fertile lands and clear streams of Alabama. Charmed by the tokens of plenty and the romantic scenery, pictured in blooming valleys, the limpid streams, the boundless plains and high mountains, he resolutely struck his spear into the earth, saying:

Alabama—meaning—here we rest. Little did the old warrior think at that time that in the near future there would rise up out of the far North, like a swarm of bees, a body of enterprising and industrious men, who would turn its rich and productive soils into a land of peace and plenty, yet we find this being done, and how delightful it must be for the Northern farmer who has hitherto eked out a bare existence to know that what he sows he will reap an abundance, and live in a land of health, sunshine and plenty, where he can with truth say, I am content, and willingly endorse the motto of the state: Here we rest.

## MAY VETO IT.

Mayor Lewis Not Decided on  
Salaries Question.

The resolution passed by the council Monday night reducing the salaries of the board of public works from \$1000 for the president and \$900 for the balance of the board to \$300 per annum was presented to Mayor Lewis this morning for signature.

In an interview the mayor said: "I have not yet given the matter any consideration and the most I know about it is which I read in The Herald. I have not made up my mind yet as to what I shall do. There is a chance of my using my veto prerogative."

The mayor was closeted with President M. J. Davis, of the board, during the morning, and appeared somewhat unsettled by the interview.

A scolding, voicing the sentiments of the board, said: "I think this reduction of our salaries to \$300 per annum is a mean and petty trick. It is almost preposterous to ask business men to work for such a sum as that. The work is not a whole dime, as to resigning, it is not now what it was when I took it. There has been some talk of our resigning, but I have handled it, but I hardly think it will be done."

## THEY SET UP FRAUD.

Amos Jones Sued to Recover a  
Large Sum.

Samuel B. H. G. C. C. and C. A. Chas. and William H. Jones have sued Amos B. Jones for \$200,000 alleged to have been obtained through false pretenses. It is alleged that in February, 1892, Jones induced the plaintiffs, who are all outside parties, to put up \$200,000 for a quarter interest on lands in the city of Duluth, which was to be paid in installments.

They did so, and he turned over to them an interest in a part of the land. They then sold the land to a third party, who paid for it, and the plaintiffs, who had no right to the land, were left with nothing.

The program will conclude with a range farfare given by a number of well known people. This range, called "Thirty Minutes for Refreshments," is being released by Frederick J. Chapman, and depends for its plot upon the mixing up of several people, including a number of the city's most prominent citizens, who are thrown together at a railway station by the stipulation of a mystery servant's wages are superior to all claims, and the mortgage only has an interest in the remnant or surplus.

Miss Moak's Concert.  
The indications are that the Temple Opera house will be well filled on Friday evening at Miss Moak's concert, and those who attend an evening of thorough enjoyment. An exceptionally interesting musical program has been arranged, and will be participated in by Mrs. D. H. Day and Miss M. J. Moak, who will play a duet on the piano, the Arion quartet, which will sing several numbers; Frank M. Thompson, the baritone; and a sextet.

THE VIRGINIANS ARRANGED.  
John O'Connor, P. McNaughton, Daniel Smith and Michael Mitchell, of Virginia, were arranged before Special Judge Boyle this morning. O'Connor and McNaughton are charged with carrying on a gambling establishment on their premises and the other two with keeping and conducting gambling on a street. They were set for hearing Aug. 20, at 2 p. m., and the men released under \$20 bail each.

George C. Straup, who makes the complaint, claims to have lost \$800 at craps and fare in O'Connor and McNaughton's saloon.

THE BICYCLE BAND.  
The St. Cloud Bicycle band, which is attending the bicycle most at West Superior, paraded the streets of Duluth today and was viewed with a great deal of interest by the citizens. The band numbers fifteen members, and is a very fine one. It will be several days before an opinion can be rendered as to the last grand parade of the Duluth and Iron Range road of the Duluth Hills, Pergus Falls & Northern Pacific, which applied for the forfeited grant of the old Minneapolis & St. Cloud railroad.

TOMLIN WANTS A JOB.  
St. Paul, July 17.—W. D. Tomlin, of Duluth, ex-state boiler inspector, has made application for the superintendency of the fish hatchery, making the third candidate for that position. The others are Clarence Watkins and W. P. Andrus. The chances are that Watkins will get it.

A DISHONEST AGENT.  
Kansas City, Mo., July 17.—Herman L. Mueller, local agent of the Schlitz Brewing company, was arraigned this afternoon in court on a charge of embezzlement, preferred by the company's traveling auditor. The complaint states that the amount taken is only \$1000, but this is only one item in the charge, understood he has taken about \$15,000.

CARNAHAN WILL ATTEND.  
Green Bay, Wis., July 17.—At the Pythian encampment this afternoon Mayor James Holmes delivered an address of welcome to visiting Knights on behalf of the city and A. C. Neville in a similar vein as a representative of local lodges of the order. Response was made by Brig. Gen. Frank Barry, of Milwaukee. This evening Gen. Carnahan will arrive and will be escorted to camp by the entire division. Today the camp is under strict military discipline which will continue to the end of the encampment. Knights continue to arrive on every train.

ENDEAVORERS IN MAINE.  
Portland, Me., July 17.—Sixteen hundred Christian Endeavorers including the whole Maine delegation, arrived here this morning on their way to the White mountains. In Williston church, the birth place of the Endeavor society, a brief service was held, after which Rev. W. E. McAuley, of Ohio, presided. Next morning being introduced was greeted with a tumult of applause. He spoke for ten minutes, his remarks being principally devoted to welcoming the Endeavorers to the White mountains. In Williston church, the birth place of the Endeavor society, a brief service was held, after which Rev. W. E. McAuley, of Ohio, presided. Next morning being introduced was greeted with a tumult of applause. He spoke for ten minutes, his remarks being principally devoted to welcoming the Endeavorers to the White mountains. In Williston church, the birth place of the Endeavor society, a brief service was held, after which Rev. W. E. McAuley, of Ohio, presided. Next morning being introduced was greeted with a tumult of applause. He spoke for ten minutes, his remarks being principally devoted to welcoming the Endeavorers to the White mountains.

ADAMS DISMISSED.  
The assault case of H. Levine, complainant, against Charles Adams, charged up this morning in the municipal court and was dismissed on motion of the city attorney, Levine, who carried his case at 107 West First street, claimed that Adams came into his place Monday and pounded him in the face.

THE POLICE COURT.  
Special Judge Boyle handled the usual grist of municipal court drunks this morning as Judge Ed. Boyle was occupied with the hearing of a number of civil matters. John Jackson, John McElroy and William McRobb pleaded guilty to drunkenness and were fined \$10 and costs each. M. W. Edgman pleaded not guilty to same charge and his case was set for hearing this afternoon.

Andrew Anderson, accused of embezzling the sidewalk was released under \$15 bonds for his appearance July 18, at 10 a. m.

THOMPSON WAS HELD.  
Judge Boyle rendered a decision this morning in the last case of Emma Anderson against Sylvester Thompson in favor of the plaintiff. Thompson was held to the grand jury under bonds of \$250. The case was heard yesterday, but the judge reserved his decision.

LECTURES ON PHRENOLOGY.  
Tomorrow afternoon and Sunday afternoon and evening Professor William Winslow, of Washington, one of the greatest authorities on phrenology in the United States, will lecture at the Temple. The Cincinnati Tribune said of him:

"Professor William Winslow, president of the Windsor Scientific and Benevolent association, Washington, D. C., proved and defended phrenology last night in the auditorium of the Odd Fellows temple. It was the first of a series of lectures that will deliver in this city. Professor Winslow greatly pleased his audience last night. He made an excellent point in meeting the popular idea that phrenology is a recent and distinct from phrenology. Phrenology is the science of external appearances," he said. "It and phrenology are inseparable. If you believe in one, you must believe in the other. The study of phrenology, you draw a phrenological conclusion."

## SOME COURT MATTERS.

Merritt-Rockefeller Assignment  
of Errors--Another Appeal.

The assignment of errors in the case of Alfred Merritt vs. John D. Rockefeller was filed yesterday afternoon in the United States court. It covers 106 pages of typewritten matter and contains 163 errors. These are mostly decidedly technical in nature, and objections are raised to a great many portions of the evidence which were admitted, and to the refusal of the judge to charge the jury on certain points requested by the defendant. The ruling of Judge Hiner directing the jury in estimating damages to use the valuation of the contract as a basis is also objected to.

Notice of appeal to the United States court of appeals and assignment of errors was filed today in the case of John M. Williams vs. J. M. McKelvey, al. by the defendant. Williams secured a judgment in the circuit court for \$160,000.

In the case of H. J. Redmyer, libellant, and Erick Erickson and Eugene Lachance, intervenors, vs. the schooner "The Star," libellee, the schooner "The Star" was ordered to be sold by the court for the benefit of the libellant and the same can be enforced in admiralty and is superior to the mortgage claim of Lachance, as seaman's wages are superior to all claims, and the mortgage only has an interest in the remnant or surplus.

THE VIRGINIANS ARRANGED.  
John O'Connor, P. McNaughton, Daniel Smith and Michael Mitchell, of Virginia, were arranged before Special Judge Boyle this morning. O'Connor and McNaughton are charged with carrying on a gambling establishment on their premises and the other two with keeping and conducting gambling on a street. ## A. O. U. H.

West Duluth Order Will Dedicate Its New Hall Wednesday Evening.

Baseball Team is Going to Grand Rapids to Play Sunday.

United Order of Foresters Will Complete Organization This Evening.

The new building erected by Peter Gilley on Central avenue is receiving the finishing touches and will be fully completed this week. The second story is being fitted up for a society lodge room in the front, and a photograph gallery in the rear. Banks Brothers, formerly of Duluth, have leased the gallery and expect to open up in their line of business next week Wednesday, when the dedication services will take place.

The occasion will be made a prominent event in the history of the organization here, and preparations are being made on foot for that purpose. There will be a musical program, a basket social, and other means of enjoyment and refreshments provided.

GOING TO THE RAPIDS. Manager Simons will transport his ball team on Central avenue for a game at that place on Sunday. If a sufficient number can be induced to accompany the team, an excursion train will be chartered for the trip. The trip fare, it is understood, will be placed at \$2.50.

ORDER OF FORESTERS. The new court of the United Order of Foresters will meet tonight to further complete the organization by the election of officers and the transaction of other business. One of the members chosen as the name of the court. The order has not yet secured permanent quarters and a new location has been pointed out for that purpose. Court will be held this evening in Good Temper hall.

WEST DULUTH BRIEFS. Insure your property with G. E. Hall, Dr. Kenney, dentist, over Mr. A. Bank. C. W. Hoyt has four rooms, centrally located, newly papered, to rent at \$12.00 each.

OSCAR BROWN, the hero of several well known dramas, was arrested last night for threatening to shoot Lieut. Briggs. Mr. and Mrs. James are expected yesterday from a short fishing trip to Barnum.

FRANK LINDSTROM returned to his home in Red Wing yesterday.

Rev. J. Hedberg went to Tower yesterday. He will preach in the iron city next Sunday.

J. L. Lammman is back from a trip to St. Cloud.

IT WAXED WARM. Hugo Assures The Committee That He Favors Cobb.

That the political campaign is on in dead earnest was evidenced yesterday afternoon by the interest shown at the meeting of the campaign committee of the school board meeting. When the meeting was called to order in George R. Laybourn's office, Judge Carey suggested that finances be arranged so the committee could hire a carriage for use election day in each of the eight wards in the interests of the mass meeting candidates, Messrs. Cobb and Bready.

Committee member Joseph Harmon, of the school board, who is in charge of managing E. R. Cobb's campaign, announced that the Federated Trades assembly had already arranged for carriages. Then Mr. Harmon waxed indignant and claimed that a scheme has been formulated to drop Cobb and Bready and substitute H. K. White and G. J. Mallory. In addition to this it was said that J. C. Bush, of Lakeside, had announced his intention of running independently.

Judge Carey and S. L. Frazier assured the committee that his doing as would help Mr. Cobb in any way, and said he was seeking neither a nomination nor election. He was not in sympathy with the Mallory movement. After these statements were repeated once more among the committee.

OFFERED TO WITHDRAW. He offered to withdraw if his doing as would help Mr. Cobb in any way, and said he was seeking neither a nomination nor election. He was not in sympathy with the Mallory movement. After these statements were repeated once more among the committee.

MEASURES. Harmon, Laybourn, Frazier, Barnes and Tarte were appointed a committee to attend to printing and distributing tickets, and Messrs. Gray, Hale, Myers and Carey were asked to handle the finances. Another business meeting will be held Friday at 2:30 p. m. at the same place.

## GENERAL AGENT WANTED

To open a store for the sale of NARCOTIC. The right party can earn several thousand dollars a year on entire wholesale and retail trade of this district. A few hundred dollars required, part of which will not be required till business is established. For interview, address with reference. See our ad.

The Narcotic Chemical Co., SPRINGFIELD, MASS.

## THE OLD-FASHIONED STYLE

of pill gives you a feeling of horror when you see it and when you feel it. Like the "Thunderbolt" of a former decade, it is big and clumsy, but not so effective. In this century of enlightenment, you have Dr. Pierce's Pleasant Pills, which cure all liver troubles in the most effective way. For Indigestion, Constipation, Bilious Attacks, Sick and Bilious Headache, nothing has been found to equal these pills of Dr. Pierce's invention.

Mr. SAMUEL BAKER, 212 N. Second St., Philadelphia, Pa., writes: "There is nothing that can compare with Dr. Pierce's Pleasant Pills. They have done me more good than any other medicine I have ever taken."

for this coming week. The prospects would seem to be that there will continue to be a good movement in the East and in the central states, while the Western demand during the fall and winter will be heavy. While the reports from the crops in Minnesota and South Dakota have not been quite so favorable during the past week pros-

## It Continues to Delight Large Audiences Every Evening.

The people filled the Pavilion last night as usual and were entertained to their full capacity. The delicious strains of music wafted from the hilltop by the Duluth City band combined with a vaudeville show of decidedly high quality form an irresistible attraction. Those fantastic acrobats, Massaud and Marba brought down the house last night with their original act. They are supple and agile as a pair of young kittens and accomplish feats that are ab-

little "Sketch," "The Road to Ruin," is deserving of encomiums.

But Spence and Sartelle were the highlight of the last night and gave the most brilliant display of their versatility. Apparently there is nothing in the line of entertainment which they cannot accomplish and do well. They were the first to introduce the comedians and lightning sketch artists, and in each role more clever than the others.

Two boys in town who have all their love with Mlle. Alberta, the formidable little invisible wire performer, were present last night in full force to witness the performance of the artist. She is really an admirable performer, and is possessed in addition of charm.

The owner of the 3 story store building, 119 East Superior street, desires to let the entire building to one tenant. Sulted for any manufacturing or jobbing. Low rent. Well situated for business. Elevator and rear entrance if desired.

Store, basement and rooms in the rear block for rent. Heated by steam and usual conveniences.

One ten-room brick house for sale, central, complete with every convenience at excellent condition. Easy terms if desired.

Money to loan. Fire insurance written. Bank checks for sale. Goods properties for sale. Houses for rent.

**Some Fine Sport at the Superior Bicycle Meet.**

The Superior Driving park was filled yesterday with people in attendance at the bicycle races, and among them were a large number from Duluth. There were seven races and several of them were very pretty. The 2-mile race, Class A, was won by J. W. Grichewski of Cloud in 1:22 1/2, with H. McCleary and A. C. Mertens, both of St. Paul, following in order.

There were eleven entries in the 5-mile handicap for the members of the Superior club, and the place winners were G. F. Scales, first; D. R. Burnett,

The doctors' race, half-mile open, was won by H. J. Orchard in 1:24, with P. G. McGill second and W. C. David third.

The 10-mile handicap, Class A, was the race of the day, and there were twenty-four entries. The first time prize was won by A. C. Mentens, of St. Paul, in 26:57 3-5. L. A. McDermald, of Minneapolis, placed closely in 26:54 and J. B. Burnett, of Superior, made it in 27:20. John Norman, of Minneapolis, won first-place prize with a 5-minute handicap, and L. E. Stevens, of Minneapolis, got second with the same handicap. J. B. Burnett was third.

bruises, fires, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Max Wirth.

## STRIKERS.

All the Miners on the Cas-  
cade Range Have  
Quit Work.

Work Suspended at All  
Mines Except Two in  
Marquette County.

The Negaunee Strikers Are  
Parading Today With  
Two Brass Bands.

Milwaukee, July 19.—A special to the  
Wisconsin from Negaunee, Mich., says:  
The Negaunee and Ishpeming strikers  
visited the Cascade range, 100 miles  
south of Negaunee last night and com-  
pelled all the men employed there to  
quit work. About 300 men are working  
on the range. Many of these came to  
town this morning and joined the strik-  
ers. Work at all mines in Marquette  
county except the Champion and Re-  
public is now suspended.  
The strikers are holding  
demonstrations again today. Over 1000  
marched to the park headed by two  
brass bands at 10 o'clock. Fifty 5000  
strikers met at the park, but no material  
change in the situation has thus far  
developed. The strikers are being  
accompanied by four bands when they  
go to the mines at the conclusion of  
the mass meeting. They will all visit Negaunee to-  
morrow.

## HER MURDERED GIRLS.

Mrs. Pietzel in Toronto to Identi-  
tify Her Children.

Toronto, July 19.—The detective who  
brought Mrs. Pietzel here is in close  
attendance on her and will not allow  
anyone to see her. She is extremely  
careful. She did not view the bodies  
of the children today. Hundreds of peo-  
ple are crowding around the coroner's  
office to get a glimpse of the woman,  
but their curiosity is still unsatisfied.  
The coroner continued the post mortem  
examination of the remains of Alice  
Pietzel yesterday.  
What the specialists found will not be  
made public until the resumed session  
of the coroner's court this evening. But  
it is certain that traces of some narcotic  
were found. Mrs. Caven and Harrington  
spent the day in arranging the bodies so as to  
make them presentable to Mrs. Pietzel,  
the mother, who will view the re-  
mains as soon as she is able.  
It is understood that Alice was a pecu-  
liar division in Alice's two upper teeth,  
and by this Mrs. Pietzel says she can  
identify her child. She said that the water  
immediately know the hair of the child.  
Resident Attorney Barlow, of  
Philadelphia, and Detective Caven, of  
Chicago, are at the inquest tonight. Other  
witnesses than Mrs. Pietzel will be brought  
from the United States to give evidence  
before the inquiry closes.

## M'DOWELL WINS.

Defeats Rumohr in the Closing  
Saratoga Regatta Race.

Saratoga, N. Y., July 19.—The regatta  
program of the National Amateur Regatta  
Association was completed at  
Saratoga lake this morning by the row-  
ing of the deciding heat in the senior  
single sculls. J. A. Rumohr of the Tor-  
onto Rowing club, Toronto, Can., and  
A. S. McDowell of the Delaware Rowing  
club, of Chicago, started. The weather  
was fine and the water a little sloppy.  
The signal both came at the water  
at the first time, but McDowell quick-  
ly gained the lead and forced ahead. The  
Chicagoan was first to make the turn,  
but on straightening for the home, the  
Canadian started and for a mile they  
were on even terms, but the Chicagoan  
increased his stroke and led his competi-  
tor across the line by two lengths.  
Time, 5:20.

## ASCENDED POPOCATEPETL.

Mexico City, Mex., July 19.—A suc-  
cessful ascent has been made to the crater  
of the volcano Popocatepetl by a girl of  
15 in the person of Florence Blackmore,  
of Dean's academy, Franklin, Mass.,  
who thus has the distinction of being  
the youngest member of her sex who has  
ever accomplished the perilous trip.  
The party numbered eight, and includ-  
ing three young ladies, reached the  
crater. Nearly 100 school teachers have  
arrived in this city from the Denver  
National Educational convention. The  
parties will spend several days in this  
vicinity before returning to the north.

## DENVER MAN SUICIDES.

Denver, July 19.—David J. Martin, ex-  
member of the fire and police board,  
committed suicide today by shooting  
himself in the head. Mr. Martin was  
about 60 years old and was formerly in  
the real estate business. He was one  
of the commissioners whom Walter at-  
tempted to remove and who insisted on  
holding office until a decision had been  
obtained in the courts sustaining the  
governor's action, thereby precipitating  
the famous city hall warfare last year.  
Financial reverses and ill-health are  
supposed to have been the cause of the  
suicide.

**MICHAEL CLAIMS DON ALONZO.**  
London, July 19.—The race for the  
Newmarket yesterday for the selling  
plate for horses of all ages, in which  
Don Alonzo took second place. Cam-  
Michael, whose entry, Belgravia, ran  
third, claimed Don Alonzo, under the  
conditions of the race for the selling  
plate.

**THE GOLD OUTGO.**  
New York, July 19.—W. H. Crossman  
& Co., coffee importers, will ship be-  
tween \$20,000 and \$1,000,000 in gold to  
Europe tomorrow.

## FULLERTON'S REPLY.

Threats of Prosecution Do Not  
Scare Him at All.

St. Paul, July 19.—Executive Agent  
Fullerton, of the fish and game com-  
mission, has received a letter from  
Haupt & Master, a firm of attorneys in  
Fergus Falls, notifying him that E. L.  
Thomson presented a claim against the  
commission for \$150 on account of the  
seizure of a lot of fish he had con-  
signed to the Northern Pacific Express  
company, May 1, and asking if the com-  
mission would make restitution. The  
letter quoted Thomson as saying he was  
prepared to prove the fish were caught  
with hook and line.  
Mr. Fullerton replied that no restitu-  
tion would be made and that the com-  
mission would fight the case if neces-  
sary. He said that he already had cases  
against Thomson for catching bass before  
the season opened, which would compel  
him to pay \$200 in fines, even if the  
minimum fine. The fish commission is  
not in the business of prosecuting peo-  
ple, Mr. Fullerton says, but if violation  
of the law see fit to attempt to keep it  
up and then fight, the commission will  
certainly uphold the law.  
Mr. Fullerton this morning received a  
letter from Amy Corning, of formerly  
assistant superintendent of the govern-  
ment hatchery at Duluth, making appli-  
cation for the superintendent of the  
state hatchery at St. Paul.

## MURDERED THEIR MOTHER.

Horrible Crime of Two Young  
English Boys.

London, July 19.—When the chief  
steward of the National line steamship  
"Creencia," now on his way to New York  
on board that vessel reaches the United  
States he will receive terrible news. His  
sons, Robert Coombs, 13 years old, and  
Nathaniel Coombs, 11 years old, mur-  
dered their mother at Plaistow, an eastern  
suburb of London on July 8. The boys  
stabbed her with a knife she was using  
and kept the body for nine days in the  
place where the crime was committed.  
The mother of the two boys was a widow  
woman who was discovered the two boys  
were playing cards. The only reason  
given for their crime is that they  
Mrs. Coombs whipped the youngest of  
them. The murder of Mrs. Coombs has  
caused great excitement in the neigh-  
borhood, attracting much attention on  
account of the horrible details connected  
with the crime. The boys were brought up  
in court this morning and told the whole  
story to the magistrate who examined  
them. The well-to-do people who live in  
a new house with a well kept garden.

## DESPERATE MURDERER.

Escaped and to Avoid Capture  
He Committed Suicide.

Spokane, Wash., July 19.—H. D. Smith,  
a condemned murderer, confined in the  
county jail made an ineffectual at-  
tempt to escape, and being overtaken  
committed suicide by his razor.  
A number of people joined jail-  
or Thompson in pursuit of the fugitive  
and Smith, seeing that he was being  
overtaken, made for the river and jump-  
ing in sought to cross, but the rapid  
current swept him back to the shore.  
He was seized by one of his pursuers  
when he suddenly drew out a razor  
and aimed it at his own throat. The  
blade struck his jugular vein and he  
died instantly. Smith's crime was the  
brutal murder three years ago of  
John Bryant an old rancher.

## ALL UNINURED.

Remarkable Rescue of the Im-  
prisoned Pawabic Miners.

Milwaukee, July 19.—A strong force of  
the Wisconsin from Iron Mountain, Mich.,  
says: The imprisoned miners at the  
Pawabic mine were released about mid-  
night and none of them were injured.  
The escape is considered the most re-  
markable one in the history of mining.  
The men suffered no loss of property.  
All heard the crash of the timber  
beams and made their escape to a dry  
drift on the first level.

## INSURGENTS DEFEATED.

Havana, July 19.—A strong force of  
insurgents recently attacked a detach-  
ment of Spanish troops near Guanabacoa,  
near Havana, and were defeated. The  
Cuba. The troops made a gallant de-  
fense and after two hours' fighting the  
insurgents had dispersed a band of in-  
surgents between Mount Santa and Ita.  
The insurgents left two killed and one  
wounded on the field and additional  
troops captured two prisoners.

## HUNG FOR MURDER.

Washington, July 19.—James T.  
Travers, a negro, was hanged at the  
district jail here at 11:20 o'clock. The  
crime for which he was hanged was the  
murder of his mistress, Lena Gross, on  
Nov. 19 last. About noon of that date  
the woman was discovered in the woods  
two miles from the city limits with her  
throat cut from ear to ear. Travers later  
confessed the crime.

## RACES IN ENGLAND.

London, July 19.—The Sandown Park  
second summer meeting (Eclipse)  
opened today. In the chief event, the  
Eclipse stakes, there were eight runners  
over the Fripis stakes course, about a  
mile and a quarter. Le Justicier won  
the race, which was for 10,000 sove-  
reigns. Whittier was second and None  
the Wiser third.

**FIREMEN FATALLY INJURED.**  
Philadelphia, July 19.—While going to  
a fire today a hose carriage attached to  
Engine Company No. 18 was over-  
turned at Nineteenth and Vine streets.  
Five or six of the firemen in the car-  
riage were seriously injured. C. Rider's  
skull was fractured and he was so badly  
bruised that he died in a few minutes  
after his admission to the hospital.

**JEWELERS ADJOURN.**  
St. Louis, July 19.—After choosing  
Atlantic City, N. J., for the place of  
holding next year's convention the Na-  
tional Retail Jewelers' association  
elected officers and adjourned.

**SMALL GOLD INCREASE.**  
Washington, July 19.—There was a net  
gain of about \$20,000 in the gold reserve  
today.

## DENIED.

Another Ruling by Secretary  
Smith in the Section  
Thirty Case.

Motions of Hartmann and  
Billson for a Review  
are Denied.

Duluth Land Officials are Di-  
rected to Notify Hyde  
and McDonald.

Washington, July 19.—(Special to The  
Herald.)—Secretary Smith, late yester-  
day afternoon, rendered the following  
decision on the motions for review filed  
by Emil Hartmann and W. W. Billson.  
Two of the parties interested in the cele-  
brated "Section 30" land case, techni-  
cally known as Hyde et al. versus Mc-  
Donald et al., from the Duluth district:  
"I have carefully considered all the  
errors alleged. They present no ques-  
tion not already fully considered in the  
original decision. Under such circum-  
stances the department has repeatedly  
held that motions for review should be  
denied."

This disposal of one of the most  
celebrated and bitterly contested cases  
ever before the department. Any  
further proceedings will have to be  
taken in the courts.

In promulgating the decision the local  
officers are directed to notify Hyde and  
McDonald, who claim to have not re-  
ceived notice of the secretary's first de-  
cision, and who would have filed mo-  
tions for review, had they not been  
barred by constructive laches under the  
rules of practice.

## HE SAW HARRISON.

But Will Not Reveal Just What  
Benny Said.

Rome, N. Y., July 19.—Hon. Jos. I.  
Sayles has returned home from Old  
Forge. To a reporter he said: "I went  
to Old Forge on professional business.  
Incidentally, at the request of the as-  
sociate editor of American Mechanics, I asked  
Gen. Harrison to deliver an address on  
the occasion of the outing at Old Forge."  
The general declined. He  
went to the woods for rest and he is try-  
ing to get it.  
The minute he comes out of his hotel  
with his hunting suit on, reporters flock  
about him and ask him questions. He  
about as I saw he made no statements  
to them in regard to the presidency. As  
to the talk about him, I am sure that my  
own business exclusively. I will not  
affirm or deny the stories printed with  
which my name has been connected. As  
to the statements accredited to him, he  
will naturally look after that. I have  
made no remarks except that I would  
not talk on this subject."

## HURRICANE IN MICHIGAN.

Two Children Crushed to Death  
by a Chimney.

St. Clair, Mich., July 19.—A terrific  
storm of wind struck here this afternoon  
with hurricane velocity. Several  
yachts are said to have been over-  
turned in the river and two children  
were crushed under a falling chimney.  
They were the children of William Lee.  
The hotel Cadillac was unroofed,  
and the tower of the court house was  
wrecked. Trees and chimneys have  
been blown down and telegraph wires  
prostrated.  
Great damage to property at Court-  
right. One including the wrecking of two  
of the churches, is reported.

**NO NECESSITY FOR SPYING.**  
New York, July 19.—A special from  
Montreal says: The minister of militia  
when shown a dispatch from Washing-  
ton saying that the United States gov-  
ernment had secretly sent spies into  
Canada to study the topographical situ-  
ation and means of defense, in the  
event of an invasion, said: "I do not  
believe a word of it. There is no ne-  
cessity of sending spies over here  
when everyone is at liberty to come and  
make his own surveys."

This view hardly corresponds with  
that held by the late secretary, Sir John  
Thompson, who, anticipating such a  
movement on the part of the United  
States and the co-operation of the Cana-  
dian government, had special legisla-  
tion passed in parliament in 1892 to  
make such a contingency.

**AGRICULTURALISTS ADJOURN.**  
Denver, July 19.—The ninth annual  
convention of the Association of Ameri-  
can Agricultural College and experi-  
mental stations adjourned sine die last  
night, most of the delegates left the  
city today in a special train for Fort  
Collins, where they will inspect the  
work of practical irrigation at the Colo-  
rado Agricultural college.

**OKLAHOMA FAMINE STRICKEN.**  
Denver, July 19.—Rev. T. J. Irwin,  
a clergyman from North Pond Creek,  
Grand county, Oklahoma, is in the city  
seeking aid for the drought sufferers  
of that region. He represents a most  
deplorable condition of affairs in the  
territory of Oklahoma. The people  
are living on cracked wheat or  
corn meal and water, and some of them  
have no money to buy even these.

**FOUR ARE NOW DEAD.**  
La Junta, Col., July 19.—Engineer  
Mark Wicken, who went down with the  
Santa Fe bridge at Monument bridge,  
died at the railroad hospital here, mak-  
ing the total number of fatalities thus  
far four. Brakenham Gardner is rapidly  
failing and is not expected to survive.  
The others injured are doing well.

## The Weather is Wrong For the Dry Goods Man!

It is right for you as far as PRICES go, because, you will reap the benefit  
of our big loss.

**WE ARE BOUND TO SELL  
OR BOUND TO GIVE THEM AWAY!**

But positively every dollar's worth of Summer Goods must and will leave  
this House. This is no storage house—things must move.

**That's Business! So is This:**

# GET ALL THE NEWS

THE HERALD Has always the news. Why read only a part of the news, when you can get all the news?

No paper published in Duluth gives as much or such reliable information. All the world brought to your home every evening. Ignorance is simply criminal when knowledge is so cheap.

**MIND THIS—**  
We are manufacturing  
clothing and sell  
direct to the people  
from our own  
factory at whole  
sale prices.

**WIND THIS—**  
We at all times  
guarantee satisfaction  
and cheerfully refund  
money when re-  
quested.

IT IS COMPARISON OF QUALITY, WITH PRICES THAT TELLS  
THE STORY, AND OUR READIEST BUYERS ARE THOSE WHO HAVE  
ALREADY MADE THE ROUNDS OF OTHER STORES.

# Only One Day More! Of Our Great Suit Sale...

Tomorrow, Saturday,

We have prepared many rousing bargain  
feasts, but this sale is the most rousing,  
the most rattling, stunning and startling  
of any we've ever had.

**MEN, just think of it!**

The choice of any  
suit in the house for

## \$14.98

Suits that a little earlier in the season brought \$30,  
\$28, \$25 and \$20; Suits that are positively finer than  
any tailor in this city can make 'em; suits that are  
finer and beyond all comparison superior in style,  
fit, finish and fabric to anything carried in any other  
clothing house at the head of the lakes.

## And in Addition

To this, the world's most liberal clothing offer,  
we offer the

Choice

of all our \$17,  
\$16, \$15 and  
\$12 Suits for

## \$9.98

The stupendous collection embraces works of art in  
weaving and tailoring by some of the best producers  
of good clothing in this country. And still we be-  
lieve that one single fact outweighs a thousand  
claims. You have eyes to see and ears to hear, and a  
casual glance at this most enterprising and master-  
stroke of Mercantile Supremacy will convince you  
and you will convince others that never since this  
great store existed have such beautiful perfect men's  
suits been sold for anywhere near the price.

## RECEIVED

**Wolf Brothers' Bank Wants a  
Receiver Appointed for  
William McKinley.**

**Northern City Fire Insurance  
Company Sues the Iron  
Exchange Bank.**

**Guarantee Loan and Deben-  
ture Company Will Go  
Out of Business.**

The Wolf Bros.' bank, of Mountain  
Iron, this morning filed notice of a mo-  
tion to be heard in special term, July 27,  
for a receiver for the property of Wil-  
liam McKinley, who made an assign-  
ment some time ago. No explanation  
accompanies the notice. The petitioner  
in the case is a judgment creditor.

For some time they have had McKin-  
ley and one or two others up in sup-  
plementary proceedings, and the testi-  
mony taken at those proceedings was  
filed this morning. It makes a solid  
block of typewritten manuscript nearly  
three inches thick. Wilson & Wray are  
attorneys for the petitioner.

C. C. Prindle, as receiver for the  
Northern City Fire Insurance company,  
this morning filed complaint in a suit  
against the Iron Exchange bank to re-  
cover \$15,000. It is alleged in the com-  
plaint that in August, 1894, the insur-  
ance company deposited \$15,000 in the  
bank and that only \$1500 has been drawn  
out. The remainder has been demand-  
ed and payment refused.

Hanson E. Smith, cashier of the Iron  
Exchange bank, when seen about the  
above suit, would say nothing except  
that the bank did not consider it a se-  
rious matter. The controversy is over  
some arrangements with former presi-  
dent, and the bank claims that the money  
is not on deposit.

In the case of the Bishop Iron com-  
pany against Thomas Hyde, to perfect  
title to land in the famous "section 30"  
of the 1854 and 1855 land grants, a  
number of parties defendant.

Anna G. Hanson has sued Elmer Han-  
son for divorce. The parties are 50 and  
49 years of age respectively, and they  
were married in Duluth in 1873. It is  
alleged that the husband has deserted  
the wife, who sues for divorce and  
\$2500 alimony.

Eighteen stockholders of the Guar-  
anty Loan and Debenure company have  
applied to the court to have the corpora-  
tion dissolved and a receiver appointed.  
The paid up capital is \$2500, the cap-  
ital received on installment stock is  
\$288.10 and the discounts out-  
standing are \$368.84. There are no debts  
but the corporation is running at a loss  
and the stockholders wish to discon-  
tinue business.

Viers & Jeweland, West Duluth sal-  
oonkeepers, have assigned to Peter  
Rown.

**QUICK LOANS—**  
6% WITH OUR FAVORABLE  
"On or Before"  
Repayment Plan.  
WITHOUT THE GOLD CLAUSE.

5 Phone Bldg., W. BARTON CHAPIN, Mgr.

**WILL PUSH IT.**

**Bell Creditors Will Raise  
Funds to Investigate.**

At the time The Herald local columns  
were closed yesterday the meeting of  
the creditors of Bell's bank was in pro-  
gress at the city hall. The report of the  
committee, published in The Herald yes-  
terday was adopted and the committee  
discharged. H. S. Lord, chairman,  
after reading it said that he had gone to  
Assignee Markham to ask him if he  
would allow an expert to audit the books  
and papers if the records on file in the  
office of court's office were not com-  
plete enough or did not make a proper show-  
ing. Mr. Markham refused. Mr. Lord said,  
saying that it would be going back on  
the count inasmuch as the account had  
been passed on and would be discredit-  
able to himself. To public. Excessively  
replied that he would report it to the cred-  
itors. Capt. Hibbard, he said, was pres-  
ent with him at the time.

Considerable discussion followed this,  
the outcome of which was that Capt.  
Smallwood was chairman and was in-  
structed to appoint a committee of seven to  
raise funds sufficient to take the matter  
into court and push it. G. H. Holden  
was secretary of the meeting.

The committee will meet again on  
the evening of Aug. 1, at the same place  
at 7:30 p. m. The meeting will be held  
in the evening on the request of some  
of the laboring men who are unable to  
attend day meetings.

Capt. Smallwood has named the fol-  
lowing committee: J. J. Hibbard, Henry  
Truelson, U. A. Burnham, Morgan  
Sweeney, Henry A. Smith, G. A. Klein  
and Charles H. Johnson. They will  
meet tomorrow at 4 p. m. at Capt.  
Smallwood's office, 311 Torrey building,  
and decide what to do.

**MARRIED AT HAMLIN.**  
M. L. Cornany, formerly of Duluth,  
and Cora Minnie, of Minneapolis, was married  
last Sunday evening at Hamline by  
Justice R. Blackwell to Miss Lennie Vall  
Smith, according to the Minneapolis  
Times of today.

**Today's Police List.**  
Judge Edison was busy this morning  
in the municipal court hearing a civil  
case and Special Judge White handled  
the usual grist of offenders. The  
Quinn, who was arrested by Officer  
Boh Spindel for indecent exposure,  
pleaded not guilty and his trial was set  
for this afternoon. William Henry  
was given ten days employment with-  
out pay by the city for a glorified  
drunk he indulged in yesterday. Robert  
Moran, charged with trespass, was re-  
leased on promising to leave the city  
at once. Andrew Anderson, whom the  
police claim has been encumbering the  
sidewalks, was discharged.

Ice cream soda, with crushed fruit, 5c  
per glass. Simon Clark Grocery com-  
pany.

## HAS TAKEN ACTION.

**Health Board Forcing the Re-  
moval of Fire Debris.**

The health department has taken  
time by the forelock and there have  
been teams at work all the afternoon  
clearing away the debris of the Little  
avenue fire. It has been developed that a  
portion of the obnoxious brain, which  
causes most of the annoyance, belongs  
to the Union Transit company. Eckert  
& Williams and J. J. Hartley & Co. are  
also responsible.

A warrant was served on J. J. Hartley  
and E. E. Cheliew this morning on the  
charge of failing to remove a nuisance,  
and Mr. Cheliew appeared in the munici-  
pal court. The case was set for trial  
July 22.

Eckert & Williams are at work re-  
moving their portion of the nuisance.  
In assuming the responsibility the  
health department is acting under legal  
advice, and if the firms refuse to settle  
they will be sued by the city for the  
cost of removing the nuisance under the  
state law.

The firms in question claim that they  
have been delayed in taking action in  
the matter by the slowness with which  
the insurance adjusters are working.  
One of the adjusters did not arrive until  
this morning. Alderman Trevelian,  
who has been urging on the authorities  
to take action, is once more happy.

## HE IS A CORKER.

**Ex-Gov. Fifield Proves Himself  
a Fine Sailor.**

Ex-Governor S. S. Fifield, of Ashland,  
Wis., has conclusively demonstrated the  
fact that there is no better sailor on the  
lakes than he. Yesterday in the heavy  
sea which was raging on Lake Superior  
he guided his staunch little yacht Stella  
from Isle Royale safely into port at Du-  
luth. Many larger and more powerful  
boats sought shelter, but the little  
Stella, guided by Governor Fifield's  
steady hand, braved the storm. It was  
a pretty hard ride, however, and after  
eleven hours he stood at the wheel,  
only leaving it, as he says, "for five  
minutes to get some medicine from a  
brandy bottle." The yawl boat was lost  
and two or three windows of the cabin  
broken, but otherwise the Stella was  
uninjured.

Governor Fifield says he is going to  
take out papers now and sail the Stella  
to California.

In the party were Mrs. Fifield, two  
daughters, son and two young ladies  
from Ashland. They were all well  
shaken up and some of them were  
pretty sick. The Stella will leave again  
tomorrow on the return trip to Ashland.

## SJOLUND HELD.

**Must Answer to the Grand Jury  
for Manslaughter.**

Fred Sjolund was held to the grand  
jury this morning by Special Judge  
Boyle on a charge of manslaughter. He  
is accused of killing Peter Gordon by  
knocking him down with a blow of his  
flat. Mrs. Gordon, dressed in a  
black, was in the street and testified  
through an interpreter that her husband  
was in the habit of drinking to excess.  
The other testimony was the same as  
that introduced at the inquest. The  
jury has no authority to release Sjolund  
and he was returned to the jail. L. U.  
C. Titus appeared for the defense.

**CLAIMS AN ALIBI.**  
Attorney L. U. C. Titus, who repre-  
sented William O'Neil, the man charged  
with robbing and attempting to murder  
Dan McDonald last May, says he is sure  
of freeing his client. He claims to be  
able to prove by the testimony of a  
hotel keeper that O'Neil was at Ashland  
the night the robbery was committed.

**TWO LAKE EXCURSIONS TOMORROW.**

A charming lake excursion is one of  
the delights of a residence on Lake Su-  
perior that most people thoroughly en-  
joy, and everyone will be glad to know  
that the Ladies' union of the Morley  
Congregational church has planned  
both a daylight and moonlight ex-  
cursion for tomorrow, July 20, on the  
steamer Dixon. The morning excursion  
leaves the dock at 10 a. m. and  
goes to Two Harbors, returning at 5  
p. m. The moonlight excursion leaves  
the same dock at 8 p. m. for a trip  
around this end of the lake. Abundant  
refreshments will be served on the  
boat, so no culinary preparation is  
necessary. The ladies of Morley church  
have a fashion of succeeding with  
everything they undertake and this ex-  
cursion promises to be the excursion of  
the season, as enough tickets have been  
sold to ensure a splendid party. Peo-  
ple might well embrace these opportu-  
nities oftener and take the whole  
family along. No one can more com-  
plete rest and thorough enjoyment be  
found than on one of these lake ex-  
cursions and it is hoped the efforts of  
the ladies will meet with a generous  
response from the amusement loving  
public. Excellent music is engaged for  
the moonlight trip and tickets placed  
at 50 cents for adults and 25 cents for  
children. For sale at the drug stores  
and at the dock tomorrow morning.

Mark Twain's lecture, prices \$1, 75  
and 50 cents.

Ladies' Tan Vel Kid Lace Shoes, worth  
\$3.00, new and stylish;  
now. \$3.

## A CEMETERY UNDER WATER.

**Funny Idea of an Expert  
Fakir in Minneapolis.**

Under the heading, "Here's Another Duluth Story," the Minneapolis Journal of yesterday contained the following:

The city of Duluth is practically nonexistent when the frosts of winter lay their embargo on lake traffic. The large floating population departs, and the stationary denizens of the craggy cliffs that

overlook the icy wastes of the larger lake go into hibernation, from which they are awakened by the hoarse whistles of the first lake boat that has the guts to break its way into the harbor.

through the honey-combed ice floes which the northeast winds heap up in the Zenith City's front yard. There are, however, a few fortunate and in-  
 dustrious men to whom the winter

It is needless to say that they are gentlemen of the press. When the cold becomes so severe that the frozen at

mosphere blockades Superior street—the only street in Duluth, by the way—these gentlemen club together and raise a sufficient purse to induce some boniface to keep his board and bar—espec-

lally the latter, open during the winter. It is also stipulated in the contract that when the mercury descend below -46 degrees Fahrenheit they shall have steam heat in their rooms.

Having taken care of their material life, the scribes provide themselves with volumes of Munchausen, Jules Verne, Swift, Robinson Crusoe, Camille Flammarion, Edgar Allan Poe, Rabelais, the

Arabian Nights and a goodly quantity of back numbers of their own sheets. Then what do they do? They write. And what do they write?

Chicago and Eastern papers thrilling specials from Duluth, wherein are told such stirring tales of adventure by flood and forest as the world has not known since the ancient chroniclers were gathering their legends.

Have you not read of the man, whose skull being fractured by a train near Duluth, had presence of mind enough

to rise after the train had passed, and increase that same presence of mind by going back over the track and picking up his scattered brains, replace them in their natural receptacle? Have you not

read about the snow storms of the hen  
atite, which from time to time fall  
Northern Minnesota to the depth of  
foot? If you have, you know how the  
Duluth journalists spend the winter

months. They occupy them in writing specials, which are carefully indexed under the names of the most glib papers and sent to them from time to time under brand new date lines.

The Journal has it on the best authority that among last winter's crop of specials still on hand waiting for good opportunity is the following one:

Scooper.)—A number of the most prominent capitalists of the United States are about to organize a company in Duluth for a purpose so bizarre that it is hard to believe that the hard-headed men

such is the case beyond all doubt. When their plans have been materialized the Zenith City will be beyond all question

the gateway to a cemetery which will be sought by all the dead of the United States. It has long been known that owing to the uniform low temperature of the waters of Lake Superior both

mined, while the stock pile is being gradually reduced. A long high trestle has recently been built from the shaft house, over which all foreign matter, such as rock, is dumped.

---

## A THIN STORY.

---

San Francisco, July 20.—Charles R. Henderson, the commercial traveler, of Rochester, N. Y., who murdered Clarence Barr last Saturday, was arrested here today. He says Barr struck him and he drew his pocket knife to frighten him. When Barr approached him the second time Henderson said he flourished the knife and then he saw the fire man and was surprised when he found that he had stabbed the man.

Henderson has no relatives, anything about his family or his business affairs in the East. His mother is present with his mother in Buffalo, N. Y. He refuses to give any information about himself. He has travelled on the ground that the company has requested him not to do so.

**HITTING THE PIRE.**

San Francisco, July 20.—K. M. Smith, an attorney, has petitioned the supreme court to declare vacant the offices of the eight members of the board of supervisors for malfeasance in office. Smith alleges that the eight members of the accused supervisors are usually called, forfeited their offices by refusal to attend the sessions of the board, and the San Mateo Railway company for a franchise and awarded the coveted franchise to the San Francisco Electric The names of the supervisors against whom action is taken are: Joseph King, George W. Brown, John J. McLaughlin, Edward Charles E. Benjamin, Third District, and the others.

feet of water is to be enclosed with w netting. As soon as the enclosure has been made the fire will be started. The enclosed will be killed by means of dynamite explosions. The bodies of dead animals will then be thrown over the side. A weight will be attached to their tails and they will be lowered into the depths of the lake, where they will remain in an upright position and in the perfect state of preservation for a long time. In the place of a tombstone there will be a buoy to which the bodies will be attached by a cable. The bodies will be inscribed: "Here stands, aumber 1000, A. Veree Goodman, together with such other names as may be desired, a thinkable subject. Friends of the departed may at any time look upon their friends and relatives, and they will be able to see they are attached, after having secured permission from the cemetery authorities to make any applications for space has already been received."

Hot weather proves depressing to those whose blood is poor. Such people should enrich their blood with Hood's Sarsaparilla.

to that of his inamorata and said:  
"There is the home of Justice Joseph  
R. Blackwell.

"What do they call him Justice for?"  
said the blushing maid.  
"Because he has the power to ho-  
tangle legal snarls and tie up the  
knobs."

"Oh, how nice! He has the right to  
then, to marry people."

"Yes, darling, he has. Let's go  
and get hitched."

"It's a bargain!"

Then they hitched their wheels to a  
gleander bus and, without consulta-  
tion, fond parents on either side, walked  
to the home of Justice Blackwell, got  
a nuptial knot tied and came forth.  
"Two souls with but a single thought,  
Two hearts that beat as one!"

The young people who were married  
in this romantic way were Montsom-  
ere and Mary, a well-known Minnesota  
attorney, and Miss Leadle Van Sim-  
on, one of the prettiest girls in the  
state. The wedding, held, her home being  
1032 Eighth street.

**HIGH-WATER MARK.**

**THE WEATHER.**

U. S. Agricultural Department, Weather Bureau, Duluth, Minn., July 20.—A storm of moderate rain developed yesterday over Wisconsin and moved east to South Dakota. Showers have attended it very generally at stations from Minnesota to South Dakota, and also at stations from Kansas to Nebraska and Eastern Colorado, and have also been reported in Central Illinois and thence westward to Lake Erie.

At Duluth, the weather continued clear in the Northwest, and light frost occurred last night at Haver, where the temperature fell to 35 degrees.

Duluth temperature at 7 a. m. today, 55; maximum yesterday, 58; minimum yesterday, 38.

Local forecast for Duluth and vicinity, July 21: Showers tonight and tomorrow; rain and light showers today and tonight; generally fair Sunday; fresh and cooler easterly winds today, becoming westerly Sunday morning.

**JAMES KENEALY,**  
Local Forecast Official.

Chicago, July 20.—Forecast until 8 a. m. tomorrow: For Wisconsin: Showers tonight and Sunday; easterly winds; Minnesota: Showers tonight and Sunday; variable winds.

Depth of water over Miller sill, 14 feet 3 inches, and the forecast is that it will remain stationary during the next twenty-four hours. Upper Lakes: The winds will be variable today, becoming easterly during the night and Sunday, with probable local thunder showers.

There is a storm center this morning over South Dakota and thence westward, marked temperature changes have occurred.

**A NEEDLESS IMPROVEMENT.**  
An instance of the manner in which our taxes are being steadily and rapidly increased is found in the proceedings of the last meeting of the common council.

The improvement of Jefferson street was ordered, and it is considered probable that the cost will amount to at least \$30,000. This amount would be assessed upon the property supposed to be benefited, should the improvement be made. It would be a grievous burden upon many property owners along that street, and it is safe to say that in many cases would result in serious hardship and perhaps the loss of the property by the present owners, who are already paying all the taxes that they can bear.

By a communication from a large property owner published in this issue of The Herald, it will be seen that there are no public necessities which demand the improvement of Jefferson street and the imposition of this heavy tax upon the people. London road, which is a fine driveway, is within 200 feet of Jefferson street, and its improvement cost nearly \$200,000. On the other side of Jefferson street, only three blocks from the street, is Bench street, which was improved at an expense of nearly \$60,000. These two streets afford a first class driveway and room for the street railway to Lakeside, so that there is no necessity of improving Jefferson street for that purpose. Nor is the improvement asked for by the property owners along Jefferson street. For a distance of nearly two miles there is not a house on Jefferson street.

Mr. Congdon is authorized by the owners of four-fifths of the property which will be assessed for the cost of the improvement to state that they do not want Jefferson street improved and they will fight any assessment in the courts. They have the advice of counsel that nearly all of the cost of the improvement can be thrown upon the city, as in the case of Piedmont avenue. The result would be an increase in the general taxation of nearly \$60,000 of which every taxpayer in the city would have to pay his proportion. Taxes are high enough now, without increasing them in this rapid manner.

The only plea that has been made in behalf of the improvement is that if Jefferson street were put in condition the street railway company would remove its tracks from Bench street to that street and give the people of Lakeside more frequent and faster train service. This claim is made upon a false assumption as to the desire of the street railway company. The fact is that the company will not transfer its line to Jefferson street, if it is opened, and if it did it could not give the Lakeside people any faster service than they now have because the laws of the state and the city forbid the running of cars at a greater rate of speed. Therefore the only reason now assigned for the making of the improvement is swept away. The duty of the council is plain. It should at its meeting next Monday evening rescind the resolution ordering the improvement and thus prevent the saddling of additional heavy taxes upon the city.

**SHOULD BE EXTENDED.**  
Complaint is made by the workmen that the hours during which the polls for the school election are open is too short. The closing hour, 4 o'clock, is said to be too early to admit of voters being able to vote without losing a half day's work. The complaint appears to be just, but this is a matter that is settled by law and the school board is unable to change it. The only body that can make a change in the hours is the legislature. It would

be well therefore for the legislature committee of the Trades assembly to keep this matter in mind and, when the next legislature meets, to secure the passage of a bill extending the hours of polling to 7 o'clock.

The hours of polling at the school elections should be the same as those for the state and municipal elections. The shorter hours for which the law provides prevent many citizens from exercising their right to vote. This is one of the reasons why, as a rule, the total vote polled at school elections in Duluth, represents only a small fraction of the legal voters in the city.

**THE PROOFS AGAINST IT.**

The Minneapolis Journal is one of the gold standard organs which claim that the act of 1872 did not make the silver dollar the unit of value, and yesterday occupied nearly a column of space in trying to sustain its position, which was attacked by Senator John Day Smith. The main evidence which it produces in support of its claim is an extract from the annual report of Alexander Hamilton as secretary of the treasury, given which it says the coinage act of 1792 was based. But Mr. Hamilton's report is not of more value as evidence than is the letter written by Mr. Jefferson, which was cited by Mr. Horne in the other day in the debate at Chicago. The letter was written prior to the act of congress, and of course Mr. Hamilton's report was issued previous to that date. Neither cut any figure in the discussion, because it is a well known fact that Congress itself, despite the attitude of both Hamilton and Jefferson, insisted on making silver the unit. It is only in recent years that any one has denied this generally acknowledged fact.

Albert Gallatin, secretary of the treasury under Jefferson and Madison for ten years, wrote in 1829 that "the American dollar of 37 1/4 grains of pure silver is the unit of money and standard of value on which all public and private contracts are founded. And the silver dollar remained the unit of value from 1792 to 1873. Even Mr. Horne, now debating with Mr. Harvey at Chicago, has been forced to admit this statement of fact. Authority after authority was cited by Mr. Harvey, and the last authority from which he read was a text book on finance by Roswell G. Horr, the man who is now upholding the gold standard side in the great debate. On page 42 of this text-book, Mr. Horr says: "The first unit of value in the United States was the silver dollar. The act of 1873 made the gold dollar the unit of value instead of the silver dollar." How absurd then for the Minneapolis Journal to argue that prior to 1873 the silver dollar was not the unit of value in this country!

Equally absurd is the statement in the same issue of the Journal that the demonetization of silver accomplished by the act of 1873 was not secured surreptitiously and that there is no foundation for the claim that a great crime was thus committed. In view of what President Grant, Speaker Blaine, Senator Allison and many other members of the senate and house have said upon this point, it is astonishing that the Journal should recently have protested against Mr. Towne's charge against it of unfair treatment, should now be so unfair as to deny what has been very generally admitted for many years. There is the evidence of President Grant, Speaker Blaine and many senators and members of the house that they did not know that, when congress was passing the law of 1873, it would by its passage demonetize silver. Probably some senators and representatives did know this, but the great majority in congress and the president at that time, Gen. Grant, knew nothing about it, because they have said they did not. For this very reason the passage of the law of 1873 is one of the darkest pages in American legislation.

It is also against the Journal's contention both as to the unit of value created by the act of 1873 and as to the "crime of 1873."

**SUPPRESSING INDIVIDUALITY.**

The Elk River Star-News, while not coinciding with the views expressed by Mr. Towne on the financial question, does not have any sympathy with the Twin City goldbug organs which talk about "reading Mr. Towne out of the papers." On this point it says: "The Star-News is not in with any crowd which manifests a disposition to do that. We have too great an admiration for his brilliant intellect and promising future to be in favor of any such action. In all other respects he is an admirable Republican, a brainy man, and no party can afford to drive such men out."

The Herald fully agrees with the statement that no party can afford to drive such men out, and therefore the attempt that is being made by the Twin City goldbug papers, which are debtors to a large amount to ex-Governor Merriam on account of loans, is a move that will not benefit the Republican party in this state. If Mr. Towne were read out of the party for holding his present views on the financial question, then nearly all the Republicans in Duluth would be read out of the party, because they agree with and are prepared to endorse his position.

The present attitude of the St. Paul Pioneer Press and the Minneapolis Tribune and Journal towards Mr. Towne is what makes many people believe that the old Republican leaders in Minnesota consider it a crime for any man to think for himself. The Herald is therefore not astonished to read the following in a Democratic paper: "It has been the principle and practice of the Republican leaders to suppress to the utmost everything tending to bring out individuality, in the interest of discipline, relying on a consistency that knows no more than to obey whatever command is given, and whenever one in the body undertakes to think for himself and seek after facts, he is immediately suppressed by ridicule or any other influence that will accomplish the purpose." A color of truth is lent to this assertion by the grossly unfair manner in which Mr.

Towne has been treated. But he has stood up to the attacks of the goldbugs and to the threats and ridicule, knowing that those who secured his nomination and election are ready to support him to the uttermost.

**AN UNDERGROUND SYSTEM.**

The first practical electrical underground conduit railway in this country is now in operation in New York city, connected to the great cable-traction system of the Metropolitan Traction company. The underground electric system employed, which was designed by the General Electric company, differs radically from all previous systems of electric underground conduit railways both in construction of the conduit itself and the method of taking the current from the conductors for the motors. It has been operated more or less experimentally for the last year, and it is claimed that its success has justified the sanguine predictions of the electricians and engineers who effected the installation.

The construction of the underground conduit system is a singularly neat, though suspended from the car track passes through the slot in the center of the track and presses against the flat surfaces of two iron conductors running the entire length of the conduit. These conductors are placed each three inches on each side away from the center of the slot to avoid deleterious effects of any drip which would otherwise reach them, and are of channel four inches deep and thirty feet long. They are suspended from the ceiling of the conduit by means of insulators devised for this special purpose, and are at a depth of thirteen inches below the conduit slot. Each conductor is sufficiently rigid to require suspension at the ends and centers only. The ends are located in the motor holes and handholes are placed at the corners, inspection and repair being thus rendered comparatively easy.

Every twelfth manhole is connected with the power house by telephone. Quick breakers are located at intervals in these manholes, in order that any section of the line may be cut out in case of trouble or accident. At the track switches each conductor is provided with a haring nose to facilitate the entrance of the plough into the conductors. The current does not return by means of the rails as is usually the case with the overhead trolley. This is a distinct feature and advantage of the new system. Each conductor forms one side of the working circuit. The current is fed into the positive conductor and returns over the other or negative conductor. The current merely rises on one side of the plough, passes through the controllers into the motors and after performing its duty returns by the other side to the opposite or negative conductor.

It is claimed that this system offers the best solution yet discovered for electric traction on city streets without incurring any popular odium from what is called the trolley difficulty. It is free from the objectionable features characteristic of other methods attempted elsewhere. Instead of a plough fitted with wheels running under or over wires strung in the conduit, instead of any of the other numerous and elaborate expedients to secure a workable underground conduit electrical system, a surprisingly simple method of contact is adopted. This new system is cheap and easy to install, can be kept in repair at small expense, and is expected without difficulty. It is free from the objectionable features characteristic of other methods attempted elsewhere. Instead of a plough fitted with wheels running under or over wires strung in the conduit, instead of any of the other numerous and elaborate expedients to secure a workable underground conduit electrical system, a surprisingly simple method of contact is adopted. This new system is cheap and easy to install, can be kept in repair at small expense, and is expected without difficulty. # CHINESE

As Julian Ralph Sees the Orientals Among the Rice Fields.

Shanghai Girl Babies Are Sold Sometimes for a Dollar Each.

Typical Sights in the Great Oriental Empire—Luxuriant Fields.

There are many Chinas, or many kinds of China, but the only one I expected to find was the one I did not see, says Julian Ralph in July Harper's Magazine. It was an ideal I had been forming all along the years between my first geography and my latest purchased book—a country peopled by men wearing broad-brimmed, cone-shaped hats, and carrying boxes of tea on each end of the bamboo poles they balanced on one shoulder. That sort of man I saw once or twice among the millions I met, but the whole combination I missed altogether. My China has its gentry, its merchants, its working men, and its farmers—not to speak of beggars, actors, priests, conjurers and sailors. The Chinese are a people of extremes, extremely shrewd, well dressed, pattern shopkeepers. I was found by gentlemen graceful, polished, generous and amiable.

But the peasantry constantly reminded us of the country folk of continental Europe outside of Russia. There was the same simplicity of costume, intelligence and manners. They lived in very much the same little villages of thatched cottages. There was the same awkwardness, shyness, cunning in trade, the same distrust of strangers and of strange things. The sharpest fracture of the comparison was seen in the Chinese farmers, for, where we were, every handful of earth was almost literally passed through the hands of its cultivators, every leaf was inspected, every inch was watered, manured, watched and cared for as a retired Englishman looks after his back garden. The result was a fertility beyond compare, a glory of vegetation, a universality of cultivation that permitted no waste of space. It was a system that always included the preparation of a second growth to be planted into the place of the main growth when the first reached its harvest.

As compared with Japan, one feature of every view was strikingly in favor of the larger country. The dress and behavior of the Chinese will not offend Europeans. The women of Central China are not more modest than the women of the United States. They are as completely dressed as any woman I have ever seen. They are covered from head to toe in a costume composed of a jacket and trousers. As Mr. Weldon says: "Their complete freedom of movement is calculated to produce the most perfect nation, physically. It is God's providence that this measure to the safety of the world is offset by their inimitable food and their fondness for the crippling of women's feet." In Japan nakedness is what startles the new comer on all sides. In China "the altogether" that truly posed for is a product that I saw only in the cases of less than half a dozen children.

I am told that in the country one sees women half-bared above the waist when the sun shines tropically, but I cannot prove that. I saw one farmer girl with only her pallid front of cotton on above her trousers. I cannot, however, announce a national custom upon that slender basis. On the other hand, I saw the commoner of labor, squatted down upon the river's edge, climbing like boys, wrestling, frolicking, rowing, and in their dress and in their souls from infancy onward. I never—except in two instances among thousands—raised my eyes to have them meet those of a woman that she did not cast hers down, or turn and run, or hide her face, or her "golden lilies"—goat's feet, Weldon calls them—would carry her. Even in the night robes of the Chinese, where the bejeweled sing-song girls ply their service of song and attendance during the formal dinners of men of means, I never saw the suggestion of improper behavior on the men's or women's parts. To be sure, these women made bold to rub their hands softly against my hair (where I keep what I have, in the back) to see how our short hair feels. And they fingered my collar and cuffs, and gently touched my blankie shirt front, and giggled just as little children do under similar circumstances.

So like little children were they that I could not bear to think them different in any respect—where in that garden where baby girls only fetched a dollar in the market, until the price rose recently, in Shanghai, because of the employment of girls in the silk-flature factories. Boys are different, of course. Just as I was leaving China an old man who wanted to adopt a son picked out a likely shaver of four years old and set his heart on having him. The fool of a mother did not see that the true price the old man offered was a comfortable home and the heirloom to his property. She only saw how much the old man wanted her boy. She would not sell him for less than \$30. Therefore the prudent old fellow was obliged to stifle his budding affection and look for a cheaper child. He got a chubby little urchin for \$30, which was his limit.

**TYPICAL SIGHTS IN CHINA.** Oh, but it was a beautiful country that confronted us on the first morning out. The land led forever away in great reaches of brilliant verdure, raised neck-high above the criss-crossed waterways. The tasseled, whispering rice stood knee-high and brilliant in uncounted fields. The low, white, walled, multitudinous fields of cotton, dark green and brown, already plucked and white, and speckled with white tassels of the garnered cotton-bolls. "It's all Holland magnified"—so they say who know Holland—the long low vistas of luxuriant green, the ever-lengthening, unbroken, flat view, the silvery water routes, and the great sails in every distance, seeming to glide over the land. To me the same scenes suggested Long Island at its best. To every eye from America or England the comparisons would be as homelike and familiar. To be sure there was every here and

there the far of something Chinese in the form of a pagoda rising jolike in the far distance, in the plenty of smooth-skinned buffaloes, in the quaint granite bridges, in the swarming of the people in loose and faded blue, and now and then, in the little outside refuges or rest-houses along the only roads, the tow-paths. And these resting-places were of more Chinese than the account that Ananias, our boy, gave of them.

"Volly good ting," said he. "Suppose one bakeman (bear) got volly much lain or got volly much tired—too much wake—can rest, can make sleep night-time. Plenty man can do. No fling of the eye in any direction fails to compass many pump-sheds or irrigating stations. These are composed of a square roof of matting upon four short poles, and under it a horizontal cogged wheel that grinds a chain of buckets reaching down into the water. A blindfolded buffalo turns the great wheel by dragging its motor-bar around behind him—an ox of the African type, with a hide like a hippopotamus turned black, and with shapely flat black horns that curve back in line with his body. A man or a boy or a girl lounges on the earth near by to keep the solemn beast from forgetting his lot to labor. Over his eyes he wears a bandage of straw, or two old shoes, or the shells of a pair of tortoiseshells, and yet at each creaking, gushing round of his wheel he steps over the chain of scoops with the precision of perfect sight, while the water pours into the field behind it in a solid liquid stream. Ofttimes the sheltering shed had a lush pumpkin-like vine trained over its brown roof, and then the great green leaves and blazing yellow blossoms caused my artistic companion to wall for his oils.

In as full harmony with the sweet, pure country are the numerous villages where the tillers of one acre or three acres rice and cotton farms huddle together, not merely as neighbors ruled by the usual ten heads of families, but very, very often as folk of one blood and family and surnames—for such are the villages of China. Beside the lesser picturesque settlements—each a long line of low buildings overwhelmed to the vision by clouds of tree foliage. From a distance the thatched roofs peeping out of the greenery recall many hamlets that I have seen in Devonshire. But nearer at hand they look like villages made of matting, while nearer yet the houses are seen to be built of brick, wood, bamboo, or stone as well as matting—which compose so many fences and compounds and sheds as to dominate the view.

## PECULIAR MARRIAGES.

Novel Breton Custom With Many Picturesque Features.

The peasants of Brittany and their quaintness and customs have long furnished rich material for the artists and writers who flock thither in summer, says the New York World. It is in Brittany, however, when the painters and frivolous Parisians have flitted homeward that a unique ceremony takes place in the picturesque commune of Plougastel. Since time immemorial it has been the custom there not to marry during advent, and so, early in January, each year there is a day set apart for the wholesale wedding of those who have succeeded in arranging their affairs of the heart during the holy season. The number of couples united on these occasions is generally above a score, but the record was broken this year when forty-six were married in a single day.

There is no better example of the proverbial thriftiness of the Bretons than this custom. The families of the young people combine and secure from the innkeepers a considerable abatement in the cost of the eatables and drinkables which are consumed in large quantities after the ceremony. A great number of people from neighboring towns are always present at this annual knotting, which is made exceedingly attractive by the picturesque costumes of the participants. The maidens wear white caps from which stream long, bright-colored ribbons. Their dresses are trimmed with gold fringe or yellow satin, and they wear light green or greenish yellow aprons. About the waist is bound a gold-fringed sash of blue silk. The men wear short trousers of blue cloth, and jackets of varying shades of blue, worsted belts of the same color, green vests and black hats, ornamented with white and blue ribbons. The religious ceremony is preceded by the civil one at the Mairie, or town hall. At this, the order to conform with the French law, it is necessary to read to each couple that lengthy portion of the code which relates to marriage. The strain upon the voice of M. Nicole, the mayor, was so great at the last occasion that he was compelled to devote two entire forenoons to the forty-six couples.

After the ceremony at the church the newly wedded pairs, observing an ancient custom, proceed in a body to a shrine of great antiquity outside the village, after which they scatter among the wine shops of the town, where feasts have been prepared for them and their guests. This year the accommodations were insufficient, and many ate in tents. The fetes which follow the wedding last a week and are marked by a vast consumption of food and drink, the singing of Breton songs and general mirth and jollity.

For generations none of the inhabitants have ever married outside of Plougastel, for he or she who seeks a mate in the world beyond the narrow bounds of the commune is condemned to perpetual and complete ostracism.

## OLD MAIDS.

The cheery single woman has her work in her home as long as that blessing is spared to her, and when she is left without near and dear ones she finds that she can be a comfort to others and a help to the community in many ways, social, personal and otherwise, says Harper's Bazar. Mothers soon learn that their daughters are not only a pride and joy to the family, but a source of comfort and sympathy to the community. Little children love her, as she enters into their amusements and sympathizes with their small griefs, frolicking as merrily as the gayest spirit among them, and always ready to bind up the wounded heart or the cut finger. Young men and maidens confide their secrets to her discretion, and older people enjoy the delicate attentions which she delights to bestow. Should work be a stern necessity of this spinster's life, she must often find herself overwhelmed with cares and anxieties; but, to her credit, he it said, there is almost never the inclination to indulge in vain and useless repinings. Thus the real lone woman is not the one who persistently and cheerfully complains the difficulties of a solitary life, and who is ever sighing with a disarming smile, and guarding herself against falling into that infernally dreary state of mind which is the sign of a spinster, nor is it she who, debarr'd from all activity by ill health, possesses in perfection the rare art of self-exorcism, and who tranquilly and dutifully fits herself to her "perpetual maidenhood."

# MILKSHES

Some of the Differences Between Sour and Sweet Mash.

Mysteries of Distillation—How the Beer is Made Ready.

Bourbon and Rye Whisky—How It is Colored and Doctored.

Tennessee whisky differs from that made in Kentucky, called bourbon; that in the East, called rye; that in Illinois, indiscriminately rye and bourbon. The difference between each of them is in the process of making the beer, but quantity of rye and barley used and the means adopted in extracting the fusel oil. Tennesseans prefer Tennessee whisky, either from force of habit or because they have been educated to believe that it is purer than any other, says the St. Louis Globe Democrat.

There are three kinds of whiskies that receive their names from the process of manufacturing—"sweet mash," "sour mash" and "bottled sour mash." The process of distillation is, of course, the same, but the difference lies in the manner of preparing the beer. In what is called a "sweet mash" house the fermentation is not natural, but forced. The tub in which the mash is made is from 6 to 10 feet in diameter and from 4 to 6 feet in height. It is filled with the necessary amount of water, which is heated by steam, and is sufficiently hot a rake that revolves in the center of the tub is set in motion, and meal is poured in until a thick batter is formed, the rake stirring it thoroughly.

This process continues for half an hour, until the meal is thoroughly cooked. In this tub is a worm of copper pipe encircling the inside of the tub, through which cold water is constantly running, for the purpose of cooling the mash after the steam is turned off. When the mash is thoroughly cooked, it is stirred in. This rye is used for the purpose of generating the necessary heat to produce fermentation. The distiller next takes a tub holding about 100 gallons for the next day's use. This yeast tub he fills with a sufficient quantity of water heated to about 130 degrees Fahrenheit. In this he stirs a bushel and a half of rye flour to the 100-gallon tub, and then about three pecks of barley malt, which he cooks thoroughly. This is stirred with a rake similar to the one in the large tub, and set aside for use the next day. It is then cooled to about 80 degrees and the necessary amount of yeast is put into it. When ready for use it is in a very active state of fermentation. As almost every distiller has his own process for making this tub yeast, no definite directions could be given for preparing it.

**SOUR MASH PROCESS.** The sour mash process differs from the sweet mash in nearly all its essential features. No water is used in preparing the mash. The tub is filled to the required degree with spent beer, or what is known as "notch." This is the beer after all the alcohol has been boiled out of it. When ready steam is turned on, the mash is heated to about 130 degrees; the rake is then started and the meal is let in by degrees and thoroughly stirred and cooked for about twenty minutes. It is then turned off the rake stopped and the mash allowed to stand for twenty-four hours in that condition. The tub, as in sweet mash houses, has cold-water worms encircling it. The next morning cold water is run in which it has broken up (when it cools it is hard and stiff), and the rake started. Water is also run through the worm in order to cool outside of the mash. It requires three hours to get it to the temperature of 80 degrees Fahrenheit, when it is ready for malt and rye. In sour mash the proportion of rye is a little greater than in sweet mash, and only cornmeal is used, these being stirred into the mash. Just before it is ready to be turned into the fermenting tub it is cooled down to 65 to 72 degrees, according to the weather, and is then set aside for fermentation.

Another difference between the two processes is that the fermenting period in the sweet mash process is only twenty-two hours and only three tubs are used, while in the sour mash process it is four days and four tubs are used. The "sour mash" process described above is that adopted in the making of Lincoln whisky. The smaller distilleries scattered throughout the country, from Moore, Franklin, Bedford and other counties bordering on North Alabama still follow the old style of making by hand and not machinery. Instead of using mash tubs with rakes they prepare their mash by hand. These houses seldom mash over fifteen bushels per ket. The distiller, with a sack of meal on his shoulder, pours it into the tub, while his assistant, with a small hand rake, thoroughly stirs it. This is then set aside for the next day's use. The "set" to be broken up today is arranged in a semi-circle around the fermenting ket. The whiskey when run on a small tank, where it is thoroughly soaked with milk-warm water for several hours. It is then placed in a bin on the floor and covered with quilts or blankets, where it remains until the sprouts are about one-half inch long. It is then taken up and put over the fermenting tub, which is thoroughly dried, and it is then ready for use.

The whiskey made by the bastard process is not so fermented, but a combination of sweet and sour mash methods. In making the mash both water and malt are used in equal quantities. It is heated to the same temperature as that of the other processes and the next morning cold water is run in. This is allowed to stand twenty-four hours and then broken up. The yeast still in the sour mash is also used in this, and the ferment period is the

same as used in sour mash, and the same number of tubs are employed.

**LARGE YIELD IN SWEET MASH.** Of the processes the yield is largest from sweet mash distilleries, being from four to five gallons per bushel. The bastard sour mash yield is from three and three-fourths to four and a half gallons, while the sour mash yield is from two to three and a half per bushel of meal.

The sour mash is considered the purest and best of all whiskies, as most of the fermenting is done by nature. There are no very large distilleries in the South, the largest being in Green Brier, located near Nashville. This was established by Charles Nelson, a German, Jack Daniels in Moore county, the "Cascades" in Coffee county and the "Snow Spring" in Henry county are perhaps the next to the largest.

One of the secrets in making whisky not known to the average drinker is the manner in which coloring is imparted to it. The laws of the United States prohibit any coloring matter to be used by the distiller unless he has the distiller's license. The whiskey, after it leaves the worm, passes through pipes to the rectifier. This is usually a tank or large vessel firmly packed with powdered charcoal, and in the bottom of the barrel are several woolen blankets. The whiskey when run on the rectifier is as colorless as pure water; it filters through the coal, which makes all the verdigris and glutinous matter out of it. If the distiller wishes the whisky to be colored he uses a barrel which the cooper has charred on the inside to the depth of about one-fourth of an inch. It is then filled with the whisky for the coloring matter of the barrel by this process. There are other means of coloring, burnt sugar being the best.

**PROCESS OF RECTIFYING.** The process of rectifying is a sweet mash differs from that used in a sour

## SERENADE MIGNONNE.

B. V. GIANNINI.

Copyright, 1891, by THE NEW YORK MUSICAL RECORD CO.

Instead of the whisky passing through the charcoal, the steam passes through it. It is very questionable whether this process eliminates all the verdigris from the whisky. The verdigris in whisky is chemically produced by the acid in the ferment attacking the copper retort which forms acetate of copper, or verdigris. The writer has seen a rectifier at a wholesale house fill an order for one barrel of three-year-old Lincoln county whisky, one barrel of apple brandy, and one barrel of white whisky by taking three barrels of new whisky that had never been colored, and adding to two of them the necessary ingredients to make brandy and old whisky. The process of making old whisky consisted in mixing one pint of burnt sugar in one of the barrels, and the apple was made by pouring a pint of brandy flavoring in another one of the barrels. It would have taken a very fine expert to have discerned the difference between the brandy made by this rectifier and pure apple brandy.

The adulteration of whisky by wholesale dealers and rectifiers has reached such a point that they can make two barrels of whisky out of one. The man who is in the habit of taking a drink may think he drinks pure whisky, but it is safe to say that not one man in 1000 ever tasted a drop of pure whisky in a cheap saloon. The effect of whisky on the human system is very much the same, whether it be pure or adulterated. Both will "produce intoxication."

None of the after effects are felt if pure whisky is used. Wild-cat distilleries make whisky by the "sour mash" process, but in small quantities and with cheaper machinery. Pure corn whisky is uncolored, and "sour mash" that has not passed through the rectifier, and has the verdigris unextracted. Singlings is the first evaporation, and contains about 40 per cent of alcohol.

"Double distilled" is the third boiling, and contains about 120 per cent alcohol and is reduced to 100 by adding water.

## HE STARTLED THE SENATE.

It has only infrequently happened that men have been admitted to the senate chamber who had no right there, says the New York Commercial Advertiser. Ex-Senator Fairwell tells a good story on Tom Mix, of Kankakee, who gave senatorial courtesy a hard hitting severe lesson. Some bill was before the senate providing for a handsome public building for Kankakee, in which Mix was greatly interested. He had been in Washington nearly all winter, and it was largely due to his efforts that an appropriation passed the house. When Mix attacked the senate, though, he found himself all at sea. The only supporters he could find were Cullum and Fairwell of his own state. In those days cards of admission were issued to ex-senators and a strict compliance to regulations compelled each holder of a card to present it to the doorkeeper before entering. It seems that ex-Senator Doollittle had just obtained one of these cards, which he lost the same day. Mix picked it up from the floor of Willard's hotel, and was about to return it when a thought struck him. Doollittle had not been in the senate for many years and it would not be hard to impersonate him.

"It was the day his bill was to come up and, calling a cab, he was driven to the capitol at 3 p. m. He marched straight to the senate chamber, and presenting his card, was at once admitted. The doorkeeper thinking he was Doollittle. Mix took a comfortable seat in the rear of the room and carefully watched the proceedings. A motion was made which, Mix thought, affected his bill, and he was long in springing to his feet. He asked, excitedly, "The gentleman from—?" queried the vice president, who was near sighted.

"Illinois," said Mix. "I call for the yeas and nays." The body of the house recognized that a stranger was within their midst, even if the vice president had not turned him out. Senatorial courtesy was laid upon the table, and cries of "put him out" and "who is he?" "throw him down" took place. The sergeant-at-arms rushed to the

spot and Mix was summarily ejected from the room. Mix was game, however, and, despite the manner in which he was launched at, stayed in Washington till his bill was passed.

## TWO LIVES SAVED.

Mrs. Phoebe Thomas of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thomas Eggers, 133 Florida street, San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful, it is such results, of which these medicines are samples, that prove the wonderful efficacy of his medicine in coughs and colds. Free trial bottles at Max Wirth's drug store. Regular size 50c and \$1.00.

**Beecham's pills are for biliousness, bilious headache, dyspepsia, heartburn, torpid liver, dizziness, sick headache, bad taste in the mouth, coated tongue, loss of appetite, sallow skin, etc., when caused by constipation; and constipation is the most frequent cause of all of them.**

Go by the book. Pills 10¢ and 25¢ a box. Book free at your druggist's or write B.F. Allen Co., 365 Canal St., New York. Annual sales over \$2,000,000 boxes.

### No Difference of Opinion as to the Walking Delegate's Usefulness.

### No Difference of Opinion as to Their Necessity.

ions are affiliated with the American Federation of Labor, some with the Independent. Years ago it was found that however well organized the workers of one building might be, it was impossible to maintain wages or force a strike to a successful conclusion. The reason was that on the part of the organizations of the other building trades could be as effective as the one. For instance, for the bricklayers to strike without their fellow workmen would be a failure. The bricklayers would be driven out of their jobs, and the carpenter men at their posts. It would be comparatively easy to get enough men to take the place of the strikers, who would be out of the building trades and their organizations discredited. It is to insure general co-operation among all the building trades that the National Labor Union exists, and it is to insure general co-operation among all the building trades that the National Action Board is being organized. It can be brought about by a general action of all the building trades, and these trades was formed.

"As members of the board, the chief object of the National Action Board is to bring the trades to get together. The building trades are to gather in regular and special meetings for the purpose of discussing the interests of the trade, involving the interests of one or more trades, and to bring them before the board. If the painters working for any particular employer, for instance, are dissatisfied with the wages, the employers' delegate brings the matter to the board, and the board discusses the co-operation of all the trades in

### LABOR IN GREAT BRITAIN

The return of mild weather and the consequent increase in the number of working hours directed depending on the seasons, has reduced the percentage of the unemployed in Great Britain, and were it not for the effects of the war on the industry and the consequent reductions of pay and the hours of labor the report of the British board of trade would be a very favorable one. The percentage of unemployed in the number of organizations in Great Britain is showing a very favorable showing as compared with the corresponding month of last year. The report of the board of trade in a series of figures, and the engineering, ship-building and house-building trades are in a very fair condition.

During the month of June 1920, 600,000 people were affected by changes in wages. The miners of Northumberland and Durham were the first to receive reductions varying from 3% to 10 per cent.

The demands of the workmen were granted in ten instances, refused in one and in twenty-one other disputed questions. Orders have been given for starting up the pudding mills of the Cumberland and the sheet mills at the mill village and the sheet mills immediately following, when the entire plant will be put into operation, giving employment to over 400 men.

Philadelphia, notwithstanding its Independence hall, has been the despair of the Mecca to which employers turned in times of trouble with the unions. But now the city is the Mecca to which are the signs of the revival in organization among the many clothing workers of the "City of Brotherly Love."

The city has been divided into eight groups, have made a tour of Delaware on bicycles, and good meetings have been held.

Death benefits amounting to \$39,600

If you are spending your vacation as guests at a friend's home, you will not fail to bear in mind your hostess' convenience in all things. The welcome guest is as far as possible, so conduct herself that the regular order of things in the household will not be disarranged.

"You're pretty strong," said Dick to her, "but you can't expect to do as much as a man."

"Man!" shouted Liza, stung to the quick. "You don't call yourself a man, I hope."

"Yes, I do," replied Dick, calmly, "and there ain't no use in you're tryin' to outfit me, for you can't do it."

This was the first time in her life that Liza had met anybody as strong as she was, and it was pretty hard to have her honors picked to pieces right there where everybody knew her.

"Do a trick that I can't do," cried the woman.

"On one condition," said Dick. "If I do a trick that you can't do you must marry me."

"I'll do it," said Liza promptly.

Dick pulled off his coat. "Jim," said he to the man behind the bar, "knock the bung out of that barrel of whiskey."

Jim promptly knocked out the bung. Going over to the barrel Dick fixed his fingers firmly under the chimbs at each end, and setting his feet apart, lifted the barrel to his knees. For an instant he

rested, then, with his little frame trembling under the weight of the cask, he pulled it up to his chest, tipped it and took a swig of the contents from the bung-hole. He set the barrel on the floor and calmly said, "Do that."

[illegible]

A few years ago, when Liza was about 15, her father, John Titusville and brother, coming down the canal, the music drawing the boat was suddenly taken sick and died. The woman was anxious to reach Trenton, and she got into the boat, and she was driving the music to take the tiller, she went on to the towpath and placing the rope over her shoulders pulled the boat into Trenton, arriving at her father's house.

She has made her business pay and she is reputed to be worth upwards of \$50,000. She has had many offers of marriage, but she never cared to accept any of them. She is now singing, and Dick died. She lives on the canal boat, the cabin of which is luxuriously furnished. When the boat isn't moving she nowadays spends much of her time playing the violin, and when she is not playing she has become expert.

This tobacco represents the result of 134 year's experience in blending and preparing tobacco to suit a universal taste. A delicious flavor has been imparted to it without the addition of any harmful element. In substance it is unequalled by any chewing tobacco ever prepared. When you want a delicious satisfying chew, try CLIMAX PLUG.

last summer one of our grand children was sick with a severe bowel complaint. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave us speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Fredricktown, Mo. This certainly is the best medicine ever put on the market for cholera dysentery, summer complaint, colic, and cholera infantum in children. I have never failed to give prompt relief whenever used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cure it has effected.

**LADY AND THE CANDY.** A young woman whose attic and demeanor betokened wealth and refinement, attracted some attention in a fashionable candy store upon last Saturday by her persistent inquiries about the purity of the confections offered for sale.

"Are you sure that this candy is quite pure?" she asked.

"Yes, miss," answered the salesgirl, "with nothing but pure candy."

"Well, want some that is not scented," said the lady.

"With these pure you?" asked the girl, producing a pan of plain white sugar confections.

"Are these the purest that you have?" questioned the would-be purchaser, as she looked the pan over suspiciously.

"Yes, miss."

"And are they perfectly fresh?"

"Made today," was the answer.

"Well, I hope you are not deceiving me," said the young woman earnestly, "for I am very particular about the kind of candy that I buy. I want it for my little girl, and you may give me 1 cent's worth."

Chamberlain's Cough Remedy cures colds, croup and whooping cough. It is pleasant, safe and reliable. For sale by all druggists.

ORDER TO SHOW CAUSE ON FIL  
PETITION TO MORTGAGE LAN  
State of Minnesota, County of St. L  
In Probate Court, Special Term, July  
1895.  
In the matter of the estate of Robe  
Samuelson, minor.  
On reading and filing the petitio  
B. guardian of said minor, so  
forth that no personal estate has  
into his hands, the Improvements v  
are necessary for the preservation o  
real estate and a description of the  
of land of said minor which it is

And it appearing by said petition that there is no personal estate of said R. A. Samuelson, minor, to pay for any improvements which are necessary for the purchase of his real estate or part thereof.

It is Therefore Ordered, that all persons interested in said estate appear for this court on Monday, the fifth day of August, A. D. 1885, at ten o'clock at the public office of the County Clerk, in and for said County, to show cause (if any there be) why license should not be granted to said guardian to mortgage the real estate of said minor, for the purpose of obtaining funds for the making

And it is Further Ordered, that the order shall be published once in each day for three successive weeks prior to the day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said county.

Dated at Duluth, the 13th day of July, A. D. 1895.

By the Court,  
 PHINEAS AYEE  
 Judge of Probate

(Seal.) July-13-20-27.

**TO WHOM IT MAY CONCERN:**  
Notice is hereby given that an application has been made to me by Christopher Thoresen under the provisions of Chapter 42, General Statutes of Minnesota, for the year 1878, to have acts amendatory thereof, for a portion of so much of lot 45 West of Clinton street and lot 48, West of Clinton street in part of Duluth, formerly called Portland, in the county of St. Louis and state of Minnesota, according to the records thereof as lies within the limits of sections 10 and 11, in block 34, Portland Division, Duluth, in said county, according

It is ordered, that notice of such publication and hearing be given to all parties in interest by the publication hereof in The Duluth Evening Herald, of Duluth, Minnesota, once in each week for (3) successive weeks before said hearing.

Dated July 5th, 1885.
